

FRANCE MASSES 150,000 TROOPS AT BORDER; HITLER WINS UNCONDITIONAL ARMY SUPPORT

Court Fight Maze Besets Talmadge Fund Dictatorship

Friends of President in State Make New Demand for Primary as Militia Guards Governor's Cash "War Chest."

ATTACK BY LABOR IS LATEST SETBACK

Success of New Action Would Completely Tie Hands of De Facto Regime in Money Tangle.

Involved in a maze of court fights to overthrow his financial "dictatorship," Governor Talmadge, bitter critic of the New Deal, today faces new demands from President Roosevelt's Georgia friends for a presidential preference primary.

National guardsmen armed with pistols and submachine guns continued to guard Talmadge's cash "war chest" in the treasury vault at the state capitol.

But three large Atlanta banks, having about \$2,500,000 more state money on deposit, so far have forestalled the Governor's every effort to get it.

Banks Seek Ruling.
These banks are in court now seeking to establish who is the legal trustee of Georgia—De Facto Treasurer J. B. (Toby) Daniel or ousted Treasurer George B. Hamilton.

Organized labor in Georgia has entered the court fight against the "dictatorship." Labor is seeking to prevent Daniel from spending any state funds "without an appropriation bill."

Talmadge drew labor's enmity in 1933 when he called out the national guards to break up the national textile strike at mills in the state.

If labor's court battle should prove successful it would completely tie the hands of the Governor, since he is operating Georgia without an appropriation bill.

Murphy Advises Calm In Communism Fight

MACON, Ga., March 8.—(AP)—A warning against "blind passion" in the American Legion's Americanism program was sounded here today by Ray Murphy, national commander of the organization.

"I am not one of those who see a red behind every bush or who believes we are just one jump ahead of becoming a colonial possession of Moscow," Murphy said in his address before a meeting of Georgia Legionnaires.

"Americanism, especially as it is practiced in the Legion, is not confined solely to a militant campaign against communism."

"When every post has undertaken a worthwhile youth training activity," he added, "then indeed our program will begin to show results; then, indeed, we shall have seen need to worry about the antics of a few psychopathic communists."

Earlier in the day the executive committee voted to hold the state convention in Athens in the latter part of June. No definite date for the meeting could be set today, it was said.

LEAGUE'S COUNCIL SUMMONED TO ACT ON RHINE SEIZURE

Naval and Air Demonstrations Seen If Berlin Is Found Engaged in Preparations for War.

By JOSEPH E. SHARKEY.
GENEVA, March 8.—(AP)—A French appeal to the League of Nations against Germany's repudiation of the Locarno treaty arrived tonight and a session of the League council was immediately called for Friday to deal with the matter.

Stanley M. Bruce, of Australia, president of the council, called the session of the council, occupied in the past few months almost exclusively with the Italo-Ethiopian war.

A naval and air demonstration against Germany is possible if the council of the League of Nations, on France's appeal, should find Berlin engaged in or preparing for any hostile action, officials said.

Demonstrations Expected.
Under a report approved by a council committee in 1927 interpreting articles of the League covenant, naval and air demonstrations are included in a list of conceivable measures of "restraint" against a country making a threat of war.

The present League view is that any appeal to the League against Germany will probably result, as in 1935, in a condemnation of the Reich for unilaterally denouncing treaties and that subsequently Europe will concentrate upon building up a new system of security.

Officials emphasized that a tripartite resolution adopted at the Stresa conference in 1935, alluding to Germany's proclamation of compulsory military service, declared Germany's "Continued in Page 5, Column 5."

NOTED ARMY FLYER IS KILLED IN CRASH

Lieutenant Robert Giovannoli, Hero of Bomber Crack-Up, Falls to Death

BAITIMORE, March 8.—(AP)—Lieutenant Robert K. Giovannoli, of Lexington, Ky., a hero of a spectacular bombing plane crash during army tests at Dayton, Ohio, last October, was killed today in a crack-up of his army plane at Logan field.

Giovannoli's single-seated pursuit plane lost its right wing coming out of a glide and hurtled down in a crash spin from an altitude of less than 500 feet. It rolled over after hitting the landing field and was demolished.

The flyer was dead before spectators could reach the wreckage. He was on a cross-country flight from Westinghouse field, Dayton.

Lieutenant Giovannoli had been awarded a medal for his heroism in rescuing two men from the flaming wreckage of the Boeing flying fortress after it crashed during the army bomber tests at Wright field, Dayton.

He, with a companion, had hastily pulled his coat over his head and crawled the giant bomber to safety. The Wright field hero was taking off for the Middletown, Pa., air station when his plane plunged him to death at Logan field. He had arrived here yesterday.

Lieutenant Colonel H. C. K. Nuhlberg, air officer of the third corps area and in command at Logan field, said an army board of inquiry would be held.

Cobb Says: League Only Weather Vane

By IRVIN S. COBB.
(Copyright, 1936, by North American Newspaper Alliance, Inc.)
SANTA MONICA, Cal., March 8.—After his transatlantic scorching tour he is leaving us—once our venerated idol and always our severest critic.

Somewhat overlooked a chance last week as the world's most distinguished vegetarian, having in advance deplored it for showing the bad taste to be a Yankee institution, stood on the rim of America's noblest scenic wonder, shaking a petulant whisker over that incredible void and munching a carrot and peasively sandwich.

The Grand Canyon certainly would have been such a swell place for throwing your old George Bernard Shaws. With war-clouds thickening on half of Europe's frontiers—not to mention Asia's—the League of Nations is functioning as usual. In other words, it is to menacing armies what a weather-vane is to the weather—wagging madly in the direction whence the storm cometh but utterly without effect on same.

Next to a palm leaf fan at the south pole, can anyone think of anything as futile as a Geneva conference?

Nazi Cavalrymen Invade Demilitarized Rhineland

This radiophoto shows German cavalrymen riding into Cologne, in the heart of the Rhineland, on orders from Reichsfuehrer Hitler whose sudden renunciation of the Locarno pact with the allies startled Europe. Invasion of the territory demilitarized the post-war treaty gave rise to fear of another conflict. The picture was telephotoed from Berlin to London and then radioed to New York. (Associated Press photo.)

ROOSEVELT URGES RAILWAY ACCORD

White House Conference Is Proposed in Letter to President J. J. Pelley.

Text of Letter in Page 5.
WASHINGTON, March 8.—(AP)—A plea for railroad management and labor to negotiate an accord in controversy arising out of the government's proposals for rail unification was made public today by President Roosevelt.

Saying that a "critical situation prompts this letter," Mr. Roosevelt directed his request to J. J. Pelley, president of the Association of American Railroads, and J. A. Phillips, vice chairman of the Association of Railway Labor Executives.

The president said that it negotiations failed, management and men "confer jointly with me." A series of labor-management conferences already have been held.

The emergency railroad transportation act of 1933, under which the government has projected proposals for elimination of what Mr. Roosevelt termed "waste in railroad operation caused by the great number of railroad companies" was said by the President to be "satisfactory neither to the companies nor the employees."

The question of how labor would be affected under the government's program for rail unification and coordination has been argued since Joseph B. Eastman, federal transportation co-ordinator, made his first recommendations for these activities in 1933.

The emergency transportation act, which provided for the creation of a co-ordinator, contained certain restrictive clauses designed to protect labor in co-ordinating projects. These provided that the number of employees at any given point could not be reduced as a result of co-ordination. Neither could the suffer salary cuts or demotions.

Labor leaders, however, have complained these provisions were insufficient to guard their interests, and have opposed many of Eastman's proposals on that ground.

Pelley declined comment on the President's letter but other rail officials said that the conferences would be continued until an accord is reached or until "all possibility of an agreement has been exhausted."

It was indicated that as far as management was concerned a conference would be held with Mr. Roosevelt before the efforts to smooth out the differences would be allowed to collapse.

"The negotiations have not broken down," the officials said.

Resume of Activity In Rhineland Crisis

By The Associated Press.
PARIS.—Cabinet, in "council of war," orders air and army reinforcements to German frontier, tells news to stand ready, calls meeting of Locarno signatories Tuesday and appealed to League; refuses to consider German offer of peace pact; hears Mussolini will exchange support in crisis for French aid against sanctions for African war.

BERLIN.—General Von Blomberg, minister of war, pledges army's fealty and devotion to Hitler, thanks him for sending troops into the Rhine.

MOSCOW.—Soviet writers say "Germany's violation of Locarno is step toward general European war."

GENEVA.—Meeting of League council called for Friday to act on French appeal against Germany's action; officials say military demonstrations by member states against Reich may be adopted if an appeal is approved.

BRUSSELS.—Special session of Belgian cabinet asks immediate session of League council to consider Germany's repudiation.

LONDON.—British take "serious view" of situation.

RETURN OF TROOPS HAILED IN COLOGNE

Hitler's Soldiers Take Up Watch From Black Forest to Dutch Border.

COLOGNE, Germany, March 8.—(AP)—Adolf Hitler's soldiers took up a watch on the Rhine today while the population along the important frontier, from the Black forest to the Dutch border, enthusiastically celebrated what they called the greatest memorial day since the World War.

(March 8 is an official holiday in Germany in remembrance of war dead.)

The former demilitarized area, more than any other part of Germany, coupled its annual services in memory of those who died in former wars with a jubilee over the marching in yesterday and today of Germany's new army.

Everywhere Adolf Hitler was hailed as the man who "gave us our soldiers back," who recreated "die wacht am Rhein" (the watch on the Rhine). People in the streets spoke of the

Continued in Page 5, Column 6.

MOSCOW CLAIMS HITLER SEEKS WAR

Western Europe Is Urged To Take United Stand Against German Plans.

MOSCOW, March 8.—(AP)—Germany's march into the Rhineland was declared by authorized Soviet writers today to be in preparation for a war which will involve practically all of Europe.

Karl Radek, who expresses the official viewpoint, said in an article in the newspaper Izvestia that unless the states of western Europe take a united stand in the face of "menacing Nazi moves" war will break out, "more likely sooner than later."

"Threatening the east, German imperialism has already moved toward the west—that is a fact," he said. "All the rest is chatter."

The organ Pravda, of the communist party, asserted the purpose of the march on the Rhine is "to prepare political and strategic positions for war against the peoples of Europe."

It predicted that Germany might be hurled against France, Belgium, Czechoslovakia and The Netherlands, as well as against countries of the east.

The whole press joined in terming Hitler's offer of 25-year non-aggression pacts "a smoke screen."

"It is known that Germany intends to fight long before the 25 years are up," said Pravda. "Hitler could just as easily offer an agreement for 99 years."

German fascism invariably covers its aggressive moves with suggestions for peace, which, as the fate of the Locarno agreement shows, will be torn up when it decides the moment has arrived to start a war.

Radek took the stand that it is an assured fact Germany will move large forces into the Rhine zone whether or not France accepts the offer of a non-aggression pact.

Hitler's promise he was ready to sign non-aggression pacts with his immediate neighbors to the west, Radek asserted, "masks the real nature of his suggestion, which is that France give him freedom of action for expansion to the east."

The organ of the war commissariat, the Red Star, accusing Nazis of ambitions to seize a portion of soviet territory, concluded with this note of warning: "Just let them try."

1,500 Chinese Bandits Are Slain by Soldiers

KAIFENG, Honan Province, China, March 8.—(AP)—The outlaw army of Liu Kwei-tang, China's most daring and elusive bandit, attempted another lightning raid through north China today but met a crushing defeat and 1,500 of his men were killed.

Reports reaching here from north-Honan province said the bandits fell in a battle with provincial soldiers.

When they entered Honan, provincial soldiers attacked the bandits and killed 1,000 of them. Chinese reports said the surviving 500 outlaws fled toward Shantung and that troops pursued them in motor cars, slaying another 500. The remainder escaped into Shantung.

Rome and Poland Offer Military Aid To Protect France

Reich Army's Pledge of Unswerving Loyalty to Der Fuehrer Ends Fear That It Would Engineer His Fall From Power.

LEADER THANKED FOR 'HONOR TASK'

General Von Blomberg Advises Neighbor Nation Wisest Course Will Be To Accept New Treaty.

BERLIN, March 8.—(AP)—Germany's regular army, once aloof from politics, pledged its loyalty to Adolf Hitler today as the German nation waited to see what the former allies would do about its remilitarization of the Rhine and scrapping of the Locarno treaty.

General Werner von Blomberg, minister of war, in an address at the annual Memorial Day exercises for war dead, delivered a knockout blow to any speculation in foreign quarters that the army some day might endorse a change in government.

He thanked Hitler for sending troops into the Rhine and pledged the army's fealty to the Nazi cause.

"Overwhelming Heart."
Nazi chiefs mapped a propaganda campaign for the March 29 elections. Hitler, in his dramatic move yesterday, dissolved the reichstag and called the elections to prove to the world that the German people stand back of him in his defiance of Locarno.

"Today and forever the defense force is cognizant of the fact that it owes its freedom and greatness to the struggle and victory of the national socialist idea," Von Blomberg explained on the stage of the state opera house.

He looked in the direction of the former imperial box where at Hitler, surrounded by Major General Hans von Seeckt, military adviser to the government; former Field Marshal August von Mackensen; Admiral Erich Raeder; General Werner von Fritsch, chief of staff of the army; General Herman Wilhelm Goering, minister of air, and other members of the cabinet and general admirals.

"To the creator of the third reich, who is our supreme commander, the defense force renders thanks from an overflowing heart for the most honorable task ever assigned to a German soldier—that of rearing a new defense force, anchored in the people through a universal obligation to service," said General Blomberg.

A huge black iron cross on the rear wall of the stage and 39 battle-torn flags of the World War, held immovable by 36 tall young soldiers and three tanned blue-jackets, formed an impressive background as the military leader continued.

"Today and for all time the defense force feels itself indissolubly bound up with the national socialist party and all of its formations. The party and the army are two pillars which carry the new state and which cooperate most intimately in forming a new Germany."

His words were carried by radio to

Mussolini Sets French Stand Against Sanctions as Price of Backing; Paris Spurns Nazi Pact; Rushes League Appeal.

BRITAIN IS FIRMER AGAINST GERMANY

England, Belgium, Italy and France Will Confer Tuesday To Map Strategy in Rhineland Crisis.

By JOHN EVANS.
PARIS, March 8.—(AP)—The French cabinet, meeting in a virtual "war council," denounced Adolf Hitler's remilitarization of the Rhineland today and ordered land and air forces to assemble on Germany's frontiers as a precautionary measure.

The navy also was ordered into readiness.

One hundred and fifty thousand French troops are now mobilized at the Rhine border, within rifle shot range of a German army estimated at 25,000 men.

Informed persons declared the Italian ambassador to Paris had assured the French government that Italy was ready to assume its full obligations as a Locarno signatory, provided the League of Nations adopts a "sensible" attitude toward the Ethiopian war.

The French cabinet, it was stated in informed quarters, was agreed to ask the League to re-examine its condemnation of Italy in the hope that sanctions will be lifted so that Mussolini may give France his full support against Germany.

Poland Pledges Aid.
(Poland is ready to fulfill her obligations as an ally of France in event of a conflict with Germany, Polish Foreign Minister Josef Beck reportedly told the French ambassador to Warsaw today.)

According to authoritative sources Poland will stand shoulder to shoulder with the French if war results from German denunciation of the Locarno treaty and her consequent military reoccupation of the Rhineland, United Press reported.)

Foreign Minister Pierre-Etienne Flandin in a formal appeal to the secretary of the League charged "important" forces of German troops already are in the Rhineland and not the "small detachments" Berlin announced.

Flandin Demands Haste.
"Because of the need of haste I would be obliged if you will take all necessary measures so the council may meet with the shortest possible delay," Flandin said in his cable to Geneva.

France will consult with other signers of the Locarno treaty—Great Britain, Belgium and Italy—here Tuesday.

Premier Albert Sarraut, in a bitter and outspoken radio speech to the nation tonight, announced Italy France had "refused to examine" Hitler's

SENSATION FORECAST

IN TOWNSEND PROBE

WASHINGTON, March 8.—(AP)—"Stardling" disclosures in the congressional investigation of the Townsend old age pension movement were forecast today as a special house committee pushed preparations for open hearings.

Chairman Bell, democrat, Missouri, said he would ask the house accounts committee Monday for \$50,000 to finance the committee's work. No difficulty was expected in obtaining house approval of the expenditure.

Geology first won an important place in a big engineering project in 1903 when geologists were engaged in connection with constructing and placing the aqueduct and tunnel to bring water from the Catskill mountains to New York city, a distance of 100 miles.

FLORIDA'S TREASURY

GAINS OVER MILLION

TALLAHASSEE, Fla., March 8.—(AP)—State Treasurer W. V. Knott today announced Florida's February treasury balance of \$6,694,337.93 exceeded by more than a million dollars the balance for the same month of 1935.

Receipts last month were \$6,312,507.17 while disbursements were \$4,916,380.21.

Guiding Youth Is Major Activity

Of All Organized Welfare Groups

Numerous Agencies Seek To Adjust Young People To Fast-Changing Conditions of Modern Era and Provide Energy Outlet.

(Editor's Note: This is the ninth article of a series devoted to the welfare needs of the community and how Atlanta is meeting them.)

By BOYCE M. EDENS, Executive Director, Atlanta Community Chest.

A group of national leaders recently undertook a survey of human needs that must be met by community and governmental resources.

They reported that the problem of directing and assisting young people to assume responsibilities and provide leadership in the years to come "is possibly the major single problem facing this nation in the immediate future."

No one knows the extent of the problem in Atlanta. But the demands on the character-building agencies, straining their resources to the limit, are an indication that this is a field that is badly in need of wider community support.

When we know that in the Boy Scouts, Girl Scouts, Camp Fire Girls, Girl Reserves and the Junior Red Cross, thousands of youngsters are receiving careful preparation for the responsibilities of adult life, we might be inclined to say we are making adequate provision for future citizenship of Atlanta.

Energy Outlet Needed.

But when we see the hundreds of girls and young women, unemployed and eager for constructive activity, flocking to the leisure time classes

at the Y. W. C. A., and learn they are only a small fraction of those without occupation, we realize the necessity for providing some outlet for their high-tide energies.

And when a survey of the Atlanta schools shows that only one boy in seven who wants to become a Boy Scout can be given the opportunity through the resources the community now makes available for this work, it is a definite picture of a need that is not being met fully.

The program of character-building and youth guidance by the welfare agencies of Atlanta is accomplishing measurable results. The Boy Scouts have grown steadily until they now serve over 3,000 boys from every walk of life. There are nearly 1,500 girls who, through the Girl Scouts and the Camp Fire Girls, are learning to approach womanhood with clear eyes and a serenity of heart.

Largest Group Here.

In that remarkable organization the Junior Red Cross, there are over 50,000 active participants from every school in the city and county. Easily the largest single organization in Atlanta, its activities are many and varied. All tend to awaken young minds to the bigness of the world and to an impulse toward service.

But this part is the work of the welfare agencies is not something separate and apart. Because youth lives in a world geared to adult needs and problems, activity in their behalf is

Speaks Here Wednesday

Arthur C. Pillsbury, famous scientist who will give two talks in Atlanta Wednesday under auspices of the Business Girls' League of the Y. W. C. A., in the Atlanta Woman's Club auditorium.

only a part of the whole community program. Fundamental in the work of youth guidance is the background of the home, on which the whole structure is based.

Happiness in home life, development of the gift of seeing that the ordinary things of daily routine hold beauty and adventure, is a tenet of the Camp Fire Girls. Part of the Camp Fire law enjoins them to "Seek beauty, give service, pursue knowledge, be trustworthy, hold on to health, glorify work and be happy."

The records are full of instances of homes cemented, fathers and sons brought closer together, mothers and daughters given common understanding, through the work of these youth-serving agencies.

The enlarging of the sphere of home influence is an immediate effect of much of this work. Of longer range are the benefits that come from the development of leaders.

Yet those children who learn the lessons of group organization in the earliest school years through the Junior Red Cross, and those who discover the larger implications of group action later in this and other youth guidance agencies, will be intelligent citizens, and a large number of intelligent citizens means a good community in which to live and do business.

Conditions Altered.

Youth guidance work as a community enterprise is not new—the Boy Scouts have been organized in Atlanta for nearly 25 years. But conditions in the past few years have emphasized the value of this work.

Not so long ago young people were sure of a place in the world. Recently, conditions became such that they had a new leisure forced upon them, with the necessity of finding some way to keep occupied.

The important thing to consider is that youth will find occupation, regardless. If it is constructive, the young people and the community benefit. But if constructive occupation and training is not supplied, the restless spirit of youth will not permit it to sit by with folded hands. An indication of this, and a measure of the failure to provide the right kind of occupation is the fact that the majority age among criminals has moved steadily downward until the peak of serious arrests is now at 19 years.

The Department of the Interior, reporting on these conditions, said recently:

"The responsibilities of the community to young people lie within the general fields of education, occupation, recreation. Some of these are definitely obligations of the community alone. Some are obligations of the community in co-operation with schools, homes, public and private agencies, and with youth themselves—who are hardly to be separated from the fabric of the community."

HOUSE BODY CONFERS ON NEW REVENUE BILL

Treasury Estimates March Collections Will Exceed Last Year's.

WASHINGTON, March 8.—(AP)—With the first vehement outburst of criticism spent, a tortuous pathway of election-year compromises tonight apparently stretched before the Roosevelt tax program.

Suggested methods for adjusting conflicting points of view were under broad discussion as a house ways and means subcommittee prepared to take up the task of committing the chief executive's proposals to their first, tentative written form.

Despite weeks of argument ahead, administration leaders were cheerfully confident that in the end a bill would be enacted which substantially embodied Mr. Roosevelt's plan of a stiff tax on profits which corporations withhold from their stockholders and pile up as surplus.

A more showing of alternative methods of increasing revenues—principally by increasing low bracket income tax rates and extending that levy to thousands not now subject to it—had served apparently to solidify support behind the New Deal program.

Treasury Estimates.

With the entire house and a third of the senate up for re-election, congress plainly showed its distaste for any such broadly unpopular procedure as income tax revision, and the majority leaders, encouraged, were quick to sense its attitude.

Meanwhile, many members looked forward to March income tax collection totals. Mr. Roosevelt's estimates of relief requirements and a more definite figure on the cost of the bonus than is now available. They felt these might supply them with arguments for a smaller increase in revenues than that asked by the President.

The treasury has estimated March income tax collections at \$50,000,000 more than a year ago, and many observers have predicted the increase may be double that figure.

The principal objection raised to Mr. Roosevelt's suggested tax on undistributed corporate income has been that such a levy would penalize prudent concerns which wish to lay by a part of their earnings for use in business emergencies.

One compromise suggestion on this point would have a percentage of undistributed earnings exempted from the tax, the exemption being sufficient to permit the accumulation of reasonable reserves. Mr. Roosevelt has said he has no desire to deprive corporations of needed working capital.

A second objection was that it would work hardship on new industries which might with reason

wish to retain all their slender income for development and expansion. A similar exemption has been proposed for them.

Still a third criticism has been that the plan would work inequitably as between the corporation which pays dividends on most of its profits and the corporation which withholds the bulk of its earnings from its stockholders.

A complex arrangement has been suggested, with some backing, to cover this situation, under which a corporation retaining a large proportion of its profits would find them taxed at a higher rate than one turning only a small percentage of earnings into reserves.

The subcommittee, headed by Representative Samuel B. Hill, democrat, Washington, will consider all these suggestions. It is expected to complete its work within the week at most, after which the bill it draws up will be the subject of hearings before the full ways and means committee and then possibly be rewritten.

Chairman Harrison, democrat, Mississippi, of the senate finance committee, which will handle the measure when the house has passed it, planned to begin hearings on the chief executive's program, even before the measure reaches the senate.

LIBERTY LEAGUE HITS NEW FARM PROGRAM

Gag Rule Charged to Congress by Anti-New Dealers.

WASHINGTON, March 8.—(P)—The Liberty League assailed the administration's new farm program today as "political" in character and unsound economically.

In a statement, the league also maintained that administration leaders in congress "were unwilling to allow those not in sympathy with the AAA program to be heard" during hearings on the soil conservation and domestic allotment act.

"In neither branch of congress were there hearings of a character warranted by the importance of the subject," the statement continued.

"The house committee on agriculture heard the secretary of agriculture and the administrator of the agricultural adjustment act informally, but its members rejected repeated requests by minority members for permission to invite outside experts."

The testimony of the secretary of agriculture and the AAA administrator were not printed for public distribution as is customary.

League Objections.

"On the floors of the two houses administration forces rode roughshod over amendments lacking the approval of the AAA."

The league found fault with the new program in nine respects:

(1) Control of agricultural production, ruled unconstitutional by the supreme court, is intended to be accomplished.

(2) Despite the absence of contracts with farmers, the law is designed to facilitate their regimentation in a manner in conflict with basic principles of the American form of government.

(3) The secretary of agriculture is delegated even greater legislative power than under the old agricultural adjustment act.

(4) Weaknesses of the previous "parity" price formula are recognized and the arbitrary character of statistical bases is made evident by a shift of emphasis to agricultural net income.

Feed Crop Acreage.

(5) A proposed redistribution of

Speaks at Dinner Here

Rabbi Martin Zielonka, past president of District No. 7, B'nai B'rith, who spoke last night at the seventy-fifth anniversary dinner-meeting of Gate City Lodge No. 144, B'nai B'rith. In his speech he traced the 90-year history of the order.

Income between agricultural and industrial classes will lead to new inequities unless those in command prove to possess omniscience.

(6) The law will perpetuate harmful effects of the old AAA such as narrow markets both at home and abroad, abnormal relationships between commodities, increased relief rolls, extra burdens on processing industries and excessive prices to consumers.

(7) Dairy and livestock industries are menaced by contemplated diversion of large acreages to feed crops.

(8) Like the old law the new act, when stripped of those features which are either ineffective or injurious, is merely a subsidy to agriculture at the expense of the taxpayers.

(9) The law will not encourage farmers to be efficient, thrifty and self-reliant, nor will it promote co-operative effort, accomplish the greater abundance necessary for a higher standard of living, force development of new uses for farm products, or restore foreign markets—all essentials in a lasting solution of the agricultural problem.

Speeding Fire Engines Make F.D.R. Give Way

WASHINGTON, March 8.—(P)—President Roosevelt gave right of way today to the Washington fire department.

The encounter between the presidential procession, accompanied by an escort of motorcycle police blowing sirens, and roaring fire trucks occurred on Massachusetts avenue as the President was returning to the White House from church services at the National Cathedral.

The President's car and those behind it, bearing Vice President Garner and members of the cabinet, pulled quickly to the curb as the fire trucks shot by.

FLORIDA MAN DROWNS IN LAKE NEAR COCOA

COCOA, Fla., March 8.—(P)—Clarence Stanley Magee, 38, of the Works Progress Administration at Daytona Beach, drowned today after he fell from a houseboat in Lake Poinsett, three miles west of here.

William E. Hendry, Brevard county road foreman and member of the fishing party board the houseboat, plunged into the swirling eddies of the lake at that point, but was unable to reach Magee.

The body was later recovered. Magee, a native of Canada, resided in Daytona Beach for the last 11 years. He is survived by his widow, Blanche; a 10-year-old daughter, Betty; his parents, Mr. and Mrs. John S. Magee, of Daytona Beach, and two brothers, Kenneth, of Daytona Beach, and Lorne, of Orlando.

ALABAMA ACCIDENTS FATAL TO 5 PERSONS

BIRMINGHAM, Ala., March 8.—(P)—Five persons were killed and 15 others injured, three seriously, in Alabama automobile accidents over the week-end.

Miss Boone McCutchen, 18, and Wallace V. Garner, both of Birmingham, were fatally hurt in an auto collision near here last night. Miss McCutchen was killed instantly and Garner died today. Five other persons were hurt in this accident.

Louis E. Humber, 46, of Fayette, Ala., died today of injuries he received last night in a collision near Bessemer. Pierce Amos, of Albertville, Ala., died today from injuries he received last night in a collision near Albertville.

Mrs. J. C. Farmer, 32, of Enterprise, Ala., was instantly killed and her husband critically hurt in a collision near Enterprise. Two negroes were hurt in the crash.

Hawaiian Forensic Team to Speak Here

ROBERT G. NORTH.

Hawaiian Debaters Found Touchy Over Idea They Are 'Foreigners'

"It's ridiculous to even think of Japan attacking Hawaii," said John A. Casstevens, member of the University of Hawaii international debating team, touring what they termed "the mainland" under the auspices of Tau Kappa Alpha, national debating society.

An attack on our island would necessarily mean an attack on California," he continued. "People in the states seem to forget that Hawaii just a third of the way across the Pacific and could not be segregated from the mainland in an attack."

Casstevens, together with Robert S. North and Frank W. Hustace, debaters, and N. B. Beck, debate coach, were very anxious to dispel the idea that they were "foreigners."

"We have all citizenship rights as guaranteed by the Hawaiian and United States constitutions," North pointed out. "We vote 98 per cent eligible."

"Not only do we have all the rights, but we pay more taxes than the majority of states," he added in proving that they were Americans and not foreigners. "We vote republican, support the New Deal, and get to know

most of the jokes and slang before it reaches the mainland."

Social life is much the same on the island, the debaters said. They condemned the break system, declaring that it was no use to dance with a girl if you hardly had time to say "hello."

But they were much more anxious to have it clearly understood that they were Americans and not "foreigners," and that Hawaiians were not as worried about an attack by Japan as inhabitants of the mainland.

Accompanying the group were Clarence Chang, Robert Taira and Homer Hayes, who left for Washington yesterday to complete arrangements for debates in New York and New England.

The group are debating more than 60 times in the University of Hawaii chapel. Madison Byrd, Emory debate manager, will preside.

Country-Wide Safety Campaign Shows Results, U. S. Bureau Says

An encouraging "bulletin" in the war against needless loss of life through motor crashes came from Washington yesterday.

According to automobile fatality statistics for the first nine weeks of 1936, published by the Department of Commerce, America is driving more carefully this year than in 1935.

The figures revealed that 1,210 persons were killed in 86 principal cities of the country during the first nine weeks of the new year, or 250 fewer than for the corresponding period last year.

And during last week, there were 114 deaths from automobiles in those 86 reporting cities, as compared with 166 deaths last year for that week.

Battle Not Yet Won.

Good, encouraging news, this, and yet the battle is not entirely won, points out the Safety Council of the Constitution, sponsors of a safe driving campaign in Atlanta and surrounding territory.

The figures show, however, that safety-consciousness, which is just another way of saying drive and walk carefully, can accomplish real results. "What are the elements of safe walking and safe driving? Simply not doing careless, thoughtless actions which in a split second may mean the end of your life or weeks and months of suffering in a hospital."

To drive with care means simply and only to drive with proper regard for the consequences of hasty, heedless acts, and by the same token, with due regard for doing the right, the safe thing.

These rules of the safety game are neither difficult to learn nor hard to practice.

Sign the Pledge!

You will find seven, simple rules of safety outlined in the safety pledge printed in this newspaper as part of its campaign. If you haven't signed that pledge, as already thousands of persons have done, do so at once.

Read those seven rules. Their simplicity will surprise you, and prove to you beyond any doubt that there is no magic, no hocus-pocus to safety, especially in motoring.

Get in the safety game, and play it up to the hilt, for all you are worth. It pays.

Join with the Safety Council and the thousands of others who have enlisted in the war to end needless death and destruction.

Send a self-addressed, stamped envelope to "The Constitution," and receive stickers for your car and other material relative to safety.

If you are a motorist, observe the proper use of hand signals, so that at all times the driver behind you is aware of the moves you are about to make.

Think and act safely! Let's make the next nine weeks, and the entire year, a banner one for safety. The good work that has been done so far can be continued and made even better.

It is up to you!

Superintendent Jere Wells and Knox Walker to the Fifth District Dental Society for a dental inspection of all elementary and high school children, a total of 135 dentists responded to the request and made a survey last fall.

The results of the results of this inspection were made at the state department of health and presented to the Fulton county teachers by Dr. J. G. Williams, state chairman of dental health education. "The report shows an urgent need for better dental care for school children," Dr. Abercrombie pointed out.

Teachers, parents and children should realize the serious effects which mouth disease conditions may produce in the body," Dr. Abercrombie stated. "Sung, healthy, strong teeth are the result of good nutrition, adequate home care, and early and regular visits to a dentist."

"Fulton county schools are to be commended for the excellent service they are rendering in their effort to bring about an universal observance of the principles of preventive dentistry to the extent that we may have healthier, happier and more efficient men and women," Dr. Abercrombie said.

Manufacturers of the materials required to finish uncompleted projects," PWA reported to Secretary Ickes, "will help to maintain the heavy industries at their present high level of operations."

To date \$1,223,500,000 had been spent on materials, compared with \$639,000,000 in wages on construction sites, PWA asserted in contending its buying of materials had been "a major factor in reviving the heavy industries."

TORTURE OF PRISONER IS CHARGED BY SOVIET MOSCOW, March 8.—(P)—The soviet vice consul at Harbin, Manchoukuo, protested to the Manchoukuo government today against alleged torture by Manchoukuo police of a soviet citizen accused of espionage.

Soviet dispatches said the victim, N. Pirogov, had kerosene poured in his mouth and pencils thrust into his nostrils, but refused to sign a confession and was released February 28 after intervention by the vice consul.

The latter demanded that Manchoukuo authorities make an investigation and punish the guilty persons.

The consulate general at Harbin was ordered closed February 14 by the soviet government.

FREE PRESS GROWING, SAYS DEAN ACKERMAN

Rulers Can Not Indefinitely Control Public Opinion, Survey Shows.

NEW YORK, March 8.—(P)—Dean Carl W. Ackerman, of the Columbia University graduate school of journalism said tonight that any modern ruler who imagines he can indefinitely control public opinion is "indulging in a medieval dream."

The Columbia dean gave his impressions of a round-the-world trip surveying public opinion and press in a report to the university's president, Dr. Nicholas Murray Butler.

Education, newspapers, the radio and other educative media, he said, are fast building a strong body of national and international public opinion in many countries.

Sanctions Effective.

"Sanctions are unquestionably exerting pressure within Italy, but Mussolini has been checked by world opinion rather than by a lack of world materials."

"Governments may control or direct some of the agencies of communication, but the daily experiences and contacts of peoples with realities is providing public education in international affairs," he said.

"Neither censorship nor control has completely isolated the human mind. . . . Although governments are thinking and acting in terms of military and naval defenses, the wish and the will of peoples are reflected in their continuous search for a different arbiter of international disagreements and aspirations."

Dean Ackerman said he found the Philippine newspapers "enterprising and progressive," and their editorial news coverage superior to that of the Japanese press.

Japan's Press Strong.

Papers in Japan exert wide influence, he said, "because of the high literacy of the people and the orient-measurable progress."

To Speak on Photography

Captain J. D. Craig, under-sea photographer and inventor, who will speak Thursday night at the Atlanta Woman's Club auditorium in one of the Town Hall Intime series.

tation of Japanese journalists in world affairs."

"In journalism there are reasons for confidence in the possibilities of public opinion as an educational force," he concluded. "Journalistic standards are rising, and interest in education in journalism is spreading outside of the United States, in France, Japan, Turkey, India, and Italy."

The conflict between the two philosophies of journalism represented by a government-controlled press and independent newspapers is still going on, with the latter making slow but steady progress."

He is survived by his wife, the former Miss Margaret Harper, to whom he was married more than 50 years ago; a daughter, Mrs. Blanche Womack, of Atlanta; two sons, H. E. Malier, of Bolton, Ga., and W. U. Malier, of Roanoke, Ala.; two granddaughters, Mrs. J. H. Strickland, of Atlanta, and W. O. Malier Jr., of Roanoke, Ala.; a great-granddaughter, Betty Alverson, and two sisters, Mrs. Elizabeth Nelms, of Griffin, and Mrs. Ola Brewster, of Sunnyside, Ga. Funeral arrangements will be announced by H. M. Patterson & Son.

WILLIAM MALAIER, 74, OF GRIFFIN, DIES HERE

Prominent Churchman, Retired Farmer, Passes After Long Illness.

William Frank Malier, retired farmer and prominent resident of Griffin, Ga., died early yesterday at a private hospital here at the age of 74 years, following a long illness.

Mr. Malier was active in the church, civic and fraternal life of his community. He had served for 20 years as a justice of the peace in Griffin.

He was also a former worshipful master of the Griffin Lodge of Masons, and active in Masonic affairs both in Griffin and in Vaughn, Ga.

A native of Pike county, Mr. Malier established his home in Griffin as a young man. He taught singing in his youth, and always retained a keen interest in music.

He was prominently identified with affairs of the New Salem Baptist church in Griffin, serving in a variety of capacities, including chairman of the finance committee, as a member of the board of deacons and as chorister.

He is survived by his wife, the former Miss Margaret Harper, to whom he was married more than 50 years ago; a daughter, Mrs. Blanche Womack, of Atlanta; two sons, H. E. Malier, of Bolton, Ga., and W. U. Malier, of Roanoke, Ala.; two granddaughters, Mrs. J. H. Strickland, of Atlanta, and W. O. Malier Jr., of Roanoke, Ala.; a great-granddaughter, Betty Alverson, and two sisters, Mrs. Elizabeth Nelms, of Griffin, and Mrs. Ola Brewster, of Sunnyside, Ga. Funeral arrangements will be announced by H. M. Patterson & Son.

MEETINGS ARE PLANNED
TO EXPLAIN SOIL BILLCotton Planting Expected to
Conform to Last Year's
Program.

MEMPHIS, Tenn., March 2.—(P)—Southern farm leaders heading home today from a regional conference called to launch the \$500,000,000 soil conservation program, said they will begin a series of local meetings tomorrow to attempt to explain the plan to the folks "back home."

Several farmer-delegates said they still did not understand the outline of the program as presented here last week. They anticipated considerable difficulty in telling farmers who did not attend the meeting what will be done.

The opinion was expressed that in sections where cotton planting time is near, the farmers will proceed with planting operations along the general lines of the past two years, hoping that the new program will provide a satisfactory subsidy by fall.

Interpreting a warning made yesterday by H. R. Tolley, former assistant AAA administrator, that the farmers' demand for a subsidy of 6 cents a pound for diverting cotton lands to conserving crops might be in excess of available funds, several farmers said they believed the AAA might reduce the figure to 5 cents.

The farmers' committee on rates of payment recommended payment of 6 cents a pound for cotton diversion, after AAA officials had repeatedly suggested 5 cents.

The rates and conditions of payment committee's report today was described as the outstanding accomplishment of the southern regional conference. Hope was expressed by local AAA officials that farmers will accept the suggested conditions and rates as a guide for proceeding with farming operations until the formal regulations can be drafted.

C. H. Day, Texas leader of the farmers' march to Washington to induce AAA a year ago, said he was "not clear about just what he wanted from us."

"But I believe," Day said, "we can get around to the boys a few facts and these will do until the program comes along. Out in my country, the farmers want a program and they are going to do what the government suggests whether they understand it or not."

Special Crop Farmers.

Even after the meeting, outlines for procedure for special crop farmers, excepting tobacco and peanuts, remained especially vague. AAA officials said they looked forward to much work in Washington before the program can be smoothed out for sections of Tennessee, Kentucky and Virginia.

It was indicated the AAA might follow closely in drafting the regulations the farmers' recommendations for conditions to be met to make the farmers eligible for subsidy payments. It seemed generally accepted that farmers must plant an area in soil conserving crops equal to 20 per cent of the acre of soil depleting crops, and that they must not divert more than 40 per cent of their cotton lands, 30 per cent of their tobacco acreage and 20 per cent of their peanut acreage. But while working on their problems at home, they looked anxiously to Washington for the final answers.

MRS. ZELLA H. DECKNER
IS LAID TO FINAL REST

Final rites for Mrs. Zella Horton Deckner, a resident of Atlanta for 45 years, who died Friday, were held at 4:30 o'clock yesterday afternoon at the Spring Hill chapel of H. M. Patterson & Son, with Dr. George M. McFarley officiating.

Mrs. Deckner was prominent in affairs of the North Atlanta Baptist church and lived at 282 Dodd avenue. Burial was in Casey's cemetery.

W. BEN ATCHISON RITES
WILL BE HELD TODAY

Final rites for W. Ben Atchison, a resident of Atlanta for many years and recording secretary of the Atlanta Typographical Union No. 48, who died Thursday, will be held at 3:30 o'clock this afternoon at the Spring Hill chapel of H. M. Patterson & Son. Dr. Richard Orme Flinn and the Rev. Robert Burns will officiate. Burial will be in Crown Hill cemetery.

Mr. Atchison was an employee of Hearst's Georgian and Sunday American for 12 years, and came to Atlanta 28 years ago. Before entering newspaper work he was an actor and played in various stock companies.

Urges Choice by People

PHILIP WELTER.

SELECTION OF PEOPLE
FOR GOVERNOR URGED

Continued From First Page.

Is when candidates pick themselves—and get by with it.

"It is the citizens' job to clean up politics. Politics will never clean up itself."

There is one thing Welter said he wished "to make very clear. That is:

"I have no idea of becoming a candidate for governor. I wouldn't think of it. I have no candidate."

Welter said it was his thought that citizens of various communities organize themselves, and put forth their own candidate.

The advocate of the plan, who is an Atlanta lawyer, said he did not know how the state would react.

Feels Responsibility.

"But I feel a certain sense of responsibility, both as an everyday citizen, and as one who advocated the reorganization act before the house and senate committees, for the present situation in our state," he said.

The chief objection to the reorganization act was that it gave the Governor "too much power." I said at the time that a Governor should have power to handle his job in a business-like way, having the thought in mind that people would elect a man who would handle his job properly.

There is another reason citizens generally should select their candidate.

"It appears now that the coming campaign will be pitched on the Roosevelt-Talmadge issue; state issues being forgotten."

"Candidates will try to ride into office on Roosevelt's or on Talmadge's coattails."

"Our job is to take care of our own government here at home, for after all, local government is more important to local people than national government."

In his advertisement, Welter said: "I want a governor who has no other thought than to attend to that job; who is not bothered about how his acts will affect his political future"

NEW USES FOR COTTON
WILL BE INVESTIGATEDSecretary Wallace Sets Aside
\$1,300,000 for Field
Tests.

WASHINGTON, March 2.—(P)—The Agriculture Department announced today Secretary Wallace had set aside \$1,300,000 for field tests of new uses for cotton in highway construction.

The new program, to be administered by the Bureau of Roads and the farm administration, contemplates diversion of manufactured cotton fabric for use as reinforcement in bituminous surface roads and for cotton mats to speed the curing of concrete highways.

Officials plan to provide sufficient fabric for 1,000 miles of bituminous surface and 30,000 cotton mats for concrete roads. The mats will be distributed among projects in every state. The material will be made available to state highway commissions upon their request.

Conducts Experiments.

Thomas MacDonald, chief of the Roads Bureau, recently indorsed experiments in cotton mats used developed by the Texas Highway Commission and the department said experiments in use of the fabric had been conducted in South Carolina for a number of years. In the first instance, the cotton is used to "cure" concrete.

Lawrence Myers, chief of the cotton marketing section of the farm administration, said the cotton mats should find "widespread acceptance" not only in highways but in other construction.

"As yet, however, very few are acquainted with these mats and their rather high first cost tends to discourage their introduction in areas where they have not been tried out."

"To the maximum impetus to their widespread adoption in the near future, it is proposed that the agreements with state highway departments to supply each highway department, upon its request, with mats for demonstration purposes."

The reports to the Bureau of Public Roads and the Texas Highway Department show that in addition to the low curing cost, these mats have the advantage of insuring proper moisture and temperature conditions during the critical curing process."

Myers said laboratory tests indicated the value of fabric could be determined only by using it under all sorts of conditions.

"This seems to be the most effective way of demonstrating the advantages which South Carolina highway engineers and other observers of these projects claim can be obtained for this use of cotton fabric."

Under the terms of the proposed program, it would be required that each of the three fabrics now considered most suitable for this purpose be used by one section of the highway to be constructed without the fabric in order to serve as a check as to the duration of the surface and the cost of maintenance."

but solely how they will affect the general good—a man of character, sense, judgment, honor.

"There must be thousands of Georgians who feel as I do. If you do, write me."

Here Is Text of Roosevelt's Letter
Urging Consolidation of Railways

WASHINGTON, March 2.—The text of President Roosevelt's letter to J. J. Pelley, president of the Association of American Railroads, and J. A. Phillips, vice chairman of the Association of Railway Labor Executives, proposing negotiations on a controversy over rail unification, follows:

"Gentlemen:—

"I am concerned by conditions in the railroad industry. With all the other means of transportation which have become so important and are developing so rapidly, the future of the railroads depends on sustained ability to improve service and, in many cases, reduce rates. Much new equipment is and will be needed. Not all that should be done can be done at once, but if the railroads do not progress, they will retrogress. The opportunities for progress are great and will expand. The danger is that these opportunities will be lost."

"The country has a vital interest in this matter, but no one has a greater stake than those who work for the railroads. In many ways their interests are identical, and they ought to be able to work together for a common end. Certainly this is true of better and less costly service which will enable the railroads to lead, or at least keep up, with transportation progress. What disturbs me is the apparent inability of the managements and the men to co-operate in working out such common problems. Issues which ought to be settled by friendly negotiation are being fought out in the battle grounds of congress and the courts. Legislation necessary for the welfare of labor or capital or both, but it is a remedy to be taken with great caution or may prove worse than the disease."

CONSOLIDATION URGED
TO LESSEN WASTE

"A critical situation prompts this letter. It is common knowledge that there is much waste in railroad operation, caused by the great number of railroad companies, and that much of it can be avoided, either by consolidation or by greater co-operation and co-ordinated use of various facilities. This waste hampers railroad progress and is a burden on the rate-paying public. It ought to be eliminated for the good of all concerned, and conditions favorable to its elimination are now developing. I say this because the tide of traffic is rising in railroad operation, and the conditions necessary and wasteful and conditions unnecessary and wasteful are being avoided with least hardship to employees, because new work comes to take the place of much that goes."

"In the long run, the employees will surely gain from maximum efficiency in economy in railroad operation. With reasonable conditions, which they now are and promise to become, this is the only path to the increased traffic and revenues which the railroad industry needs. But sudden steps in this direction may cause temporary hardships. The employees are fairly entitled to protection against such hardships."

"The emergency railroad transportation act, 1933, undertaken to promote the elimination of railroad waste and at the same time protect the employees and the men ought to be a satisfactory neither to the companies nor to the employees, and by the terms of the act it will, unless emergency conditions exist, terminate on June 16, 1936. It is a matter which is capable of being settled to better advantage by negotiation than by legislation. Given sufficient time, the managements and the men ought to be able to agree, in their common interests, upon a reasonable plan of protection."

CAPITAL LABOR
ACCORD NECESSARY

"If they do not agree and legislation is sought as the only solution, I fear harm to the railroad industry. Both sides will take extreme positions. The effect of such legislation may be to discourage and prevent progress. Litigation will ensue. The courts may strike down what is attempted, so that the battle ground will again shift to congress. The relations between the managements and the men will be embittered, with unfortunate results in many different ways."

"All this can be avoided if the contending parties will confer with each other in a spirit of reasonableness and moderation. The employees ought not to forget what they will gain if the railroads can progress as transportation agencies and what they will lose if the railroads retrogress. They ought to bear in mind that the principle of protecting employees against undue hardship from economy projects is only beginning to gain ground. It is not as yet applied by most industries, nor by the other transportation agencies, nor even by the government. The railroad industry has always taken the lead in the establishment of good working conditions and labor relations, but it cannot safely get too far in advance of the procession. Nor ought the employees to overlook the fact that if unnecessary railroad costs are not avoided, much desirable work that creates employment may not be undertaken. This has happened in maintenance work especially, and may easily happen again."

"On the other hand, the managements ought to bear in mind that the principle of employee protection is steadily finding acceptance among responsible employers. It has been applied on the British railways and utilities. It has been voluntarily applied by certain large industries in this country, including several railroad companies. It is sound and right, and leading railroad executives have so stated. The railroads are in a position to hope for employee good will and morale if an amicable adjustment of this matter can be reached. They have even more to hope if they are able to develop among themselves the capacity for collective action and a willingness to subordinate personal and individual views in the interest of effective co-operation."

be summoned promptly to investigate the fatal crash.

Nuhnberg, who had just landed at the field himself, said Giovannioli had gotten his craft underway and had turned back to fly over the airport at a low altitude. The wing of Giovannioli's plane wrenched off, Nuhnberg said, just as the craft was coming out of the glide and starting a zoom to regain altitude.

CONFEDERATE VET
DIES IN CHAMBLEE

F. C. Jones, 90, Will Be
Paid Last Tribute.

Today.

F. C. Jones, Confederate veteran and one of the oldest residents of DeKalb county, died yesterday at his home in Chamblee, Ga., at the age of 90 years.

Mr. Jones, a retired farmer, was a life-long resident of Chamblee and a member of a pioneer Georgia family. He was a Mason, and interested in civic and fraternal affairs.

He is survived by his wife; three sons, H. M. Jones, A. B. Jones and H. C. Jones, all of Buford, Ga.; four daughters, Mrs. F. M. Davidson of Atlanta, Mrs. L. A. Higgins of Suwanee, Ga., and Mrs. M. A. Brown and Mrs. R. D. Wood, both of Chamblee; 38 grandchildren and four great-grandchildren.

Funeral services will be held at 3 o'clock this afternoon at the residence with the Rev. W. P. Hines officiating. Burial will be in Crown Hill cemetery.

The time to take
precautions—
is when your general
resistance is low!

This spring, instead of waiting until common ills bother you, do everything in your power to build good general resistance.

Right now is a time of great risk for these conditions. All winter you've been drawing heavily upon your physical reserves.

You've probably worked too hard, exercised too little, had insufficient sunshine.

Don't wait until you're affected by seasonal ills. Take steps at once to build up your general resistance. Begin with ADEX!

ADEX, in either tablet or capsule form, provides you with an abundance of Vitamin A, the vitamin

which is known to be a help in building good general resistance. Each ADEX capsule supplies not less than 6,000 units.

With ADEX tablets or capsules, you also obtain Vitamin D, which you may require from some source other than sunshine at this inclement time of year.

Squibb draws upon natural fish liver oil sources only for the vitamins.

For best results with ADEX, take it regularly. It's the day-in-and-day-out use that counts.

At any good drug store. Made only by E. R. Squibb & Sons, manufacturing chemists to the medical profession since 1858.

ALASKAN TOWN GAY
AS ICE CARNIVAL ENDS

FAIRBANKS, Alaska, March 2.—(P)—The color of North America's last frontier flashed brilliantly in the streets of Fairbanks tonight at the height of the annual ice carnival.

Hard-bitten prospectors, dog team mushers, pretty women, bankers and Indians milled about a floodlighted throng of tinted ice from which the carnival queen, Virginia Berg, 18, of the government's Matanuska colony, reigned.

Dog teams and automobiles shared the thoroughfares. Airplanes buzzed overhead, their wings coloring to the flash of fireworks breaking in the zero air.

Scenes from the gold rush days, of prospectors musing over Chitoot pass in the race to rich fields, were re-enacted.

A farewell ball ended the carnival.

'BOMB' TO EDUCATOR
IS WORK OF JOKESTER

SYRACUSE, N. Y., March 2.—(P)—A "bomb" addressed to Chancellor Charles W. Flint, of Syracuse University, intercepted in the main post-office Saturday, today was described by police as a harmless hoax, coincident with announcement that 25 students of the university had been questioned and released.

Deputy Police Chief George Peacock said the students, alarmed by the rumor resulting from the discovery at the post-office of a package containing a clock and carefully wired batteries attached to tubes, reported voluntarily to police headquarters to give statements it was "all a joke."

Questioning revealed, police said, that the contrivance contained cotton soaked with melted sugar.

Dr. and Mrs. Flint are on vacation in Miami, Fla.

ENGLISH TRIO DEPARTS
AFTER TROUBLE IN RIO

RIO DE JANEIRO, March 2.—(P)—Two Englishmen and an Englishman were escorted to their ship today by police and departed for Europe, after having had difficulties with authorities ever since their arrival here two weeks ago.

WHERE TO
STOP
WHEN YOU
GO
TO NEW YORK
FOR "BON VOYAGE"

Sailing for Europe? Or a cruise, perhaps? You'll want to rest up a bit after the rush of bag-and-baggage to New York. So you'll still feel fit when your ship starts out on the briny. Better refresh yourself by spending the night before sailing day in the Hotel New Yorker. Nearest to all piers, yet close to Times Square and conveniently cross-town to smart Fifth Avenue • Gaiety aplenty here, of course. But, when the party's over, 2,500 restful, sleep-wooling rooms welcome you. Each with tub and shower bath, radio, Servidor and circulating ice water. You'll find the best of foods in our four restaurants, including a popular priced Coffee Shop. And rooms from \$3 a day, single, \$4.50 double.

PRESIDENT OF SENATE JOINS RIVERS ATTACK

Charges Speaker of House Blocked Passage of Appropriations Bill.

FAYETTEVILLE, Ga., March 8.—President Charles D. Redwine, of the state senate, charged today refusal of a house conference committee to agree with senate conference results in the failure of a general appropriations bill to pass at the 1935 session of the legislature.

In a prepared statement issued at his home here, Senator Redwine said: "In his open letter published in

The Atlanta Constitution last Friday, Speaker of the House E. D. Rivers said the Governor named conference committees that considered the general appropriations bill on the part of the senate.

"This is a willful and deliberate misstatement of the facts and Mr. Rivers knew it when he published it. As president of the state senate I named on the first committee Senator W. M. Lester, of Augusta, as chairman of the appropriations committee; Senator E. B. King, of Fort Gaines, and Senator J. H. Clark, of Ringgold.

"After this committee was unable to agree with a like committee from the house, I appointed Senator Lester, Senator J. H. Milhollin, of Broxton, and Senator J. P. Duncan, of Perry.

"This committee reported it was unable to agree with Speaker Rivers' committee from the house and as a third committee I appointed Senators Ellis Pope, of Lyons, and Senator

R. B. McWhorter, of Greensboro, to act with Senator Lester.

"Immediately after the convening of this committee Mr. Roy Harris, of Richmond, who headed the Rivers house conference committee, I am informed, advised the senate committee they could accept the house bill just as it was written, or nothing.

"The senate committee were appointed without any suggestion from the Governor, or anyone else, and I assume full responsibility therefor.

"There are no higher type gentlemen in Georgia than those who served as conferees in the part of the senate and if the speaker of the house thinks these gentlemen can be controlled by himself, the Governor or anyone else, let him come out in the press and say so openly as he intended.

"Everybody during the last session of the legislature knew Mr. Rivers opened his campaign for governor on the opening day of the session, and ran it full blast during the entire session.

"He forced various departments to furnish him stenographers, who he kept busy writing political letters and sending passes to the floor of the house all over the state.

"He spent thousands of dollars of the people's money for stationery and postage and having passes printed to furnish citizens of Georgia who never before have been given entrance to the floor of the house, except by permission of the speaker.

"I've been familiar with Georgia politics many years, but this was about the cheapest exhibition I've ever known.

"Speaker Rivers was not satisfied with the 70-day session, but in order to continue this cheap stuff he wanted to force an extra session which could run indefinitely and conferees appointed by him refused to agree on any appropriations bill that would keep with revenue as estimated by state auditors available to pay it.

"This is the sole reason the leg-

GEORGIA DICTATORSHIP BESET BY COURT MAZE

Continued From First Page.

prations measure, due to the failure of the 1935 session to pass one.

President Roosevelt's Georgia campaign manager—Marion H. Allen—has called on individual members of the Talmadge-controlled state democratic executive committee to take the initiative in providing for a preference primary.

Allen said his appeal was because of the state chairman's failure to respond to a request for such a primary. Hugh Howell, close personal and political friend of the Governor, is chairman.

Counties Seek Primary. Other demands for a primary have come from county democratic committees as well as individual Roosevelt followers.

Seminole county, in far southwest Georgia, held a preference primary last week giving Roosevelt a 9-to-1 vote over Talmadge. The primary is not binding, but Roosevelt supporters claim it shows the trend in rural Georgia, where Talmadge claims his strength.

Talmadge has charged his friends knew nothing of the primary until it was over. The chairman of the Seminole county committee has denied this.

With reference to Allen's demands, the chairman of the Talmadge-controlled committee said: "Neither I nor any members of the committee

are fooled by the ranting of Marion Allen.

"Allen and some other New Dealers are trying to trick the state committee and because they can't do it they are trying to browbeat us."

"I have stated many times that a meeting of the Georgia democratic committee will be called in plenty of time to decide a primary and to have plenty of time for a campaign, if the committee decides to have a primary."

Talmadge Delays Session. It was learned from authoritative quarters yesterday that the state committee had planned to meet early this month, but due to the financial mudle it has been delayed.

Talmadge charges Georgia's present troubles directly to the New Deal. Talmadge said the administration was keeping him in Georgia to prevent him continuing his national campaign against the President's re-nomination.

The Governor turned his attack on Clark Howell, editor of The Constitution Saturday, charging Howell threatened him with impeachment if he refused to call an extra session to request an appropriations bill if requested by a majority of the members of the state house and senate.

Howell, in reply, said, "I think he (Talmadge) would be entitled to congratulations if he escapes impeachment" should he decline such a call.

Talmadge defied Howell, whose editorial columns have criticized the Governor both for his attacks on the President and his continued refusal to call an extra session.

The Governor, in his latest statement, laid failure of the legislature to pass the appropriations bill on the President and his continued refusal to call an extra session.

Several state solons have come to the defense of Talmadge since Rivers made his charge. Among them is W. M. Lester, Augusta state senator, who assailed Rivers for what he termed "Mr. Rivers' eagerness to carry forward his campaign for governor."

U. S. SPENDING GROUPS MAY SAVE ONE BILLION

Reduction of \$800,000,000 for HOLC Is Seen by Officials.

WASHINGTON, March 8.—(AP)—Officials of federal lending agencies, estimated that they would be able to cut a billion dollars from the amounts that congress had given them permission to spend.

A summary of estimates of the amounts officials said they hoped to be able to slash from their authorizations listed the following amounts:

Home Owners Loan Corporation, \$800,000,000.

Federal Housing Administration, \$100,000,000.

Reconstruction Finance Corporation and Farm Credit Administration, between \$150,000,000 and \$200,000,000.

All of these amounts were sums congress authorized them to use. The money has not been appropriated, however.

By wiping out the authorizations, officials said the agencies would not materially curtail their present activities.

Home Owners Loan Corporation. Officials are making a detailed study to determine how much of its spending authority can be eliminated. Their tentative estimates fixed the figure at \$800,000,000.

The corporation has used more than \$3,000,000,000 to refinance urban home loans. It will discontinue lending on June 13.

Improvement in repayments of HOLC loans was said to be one factor supporting the belief that as much as \$800,000,000 might be eliminated from the corporation's authorization.

ST. LAWRENCE TREATY RATIFICATION IS SEEN

Pittman Says 13 Senators Can Be Persuaded To Change Votes.

WASHINGTON, March 8.—(AP)—A new administration drive for ratification of the St. Lawrence treaty with Canada aimed at approval of the pact at the next congressional session—was intensified today in reliable senate quarters.

Chairman Pittman, democrat, Nevada, of the senate foreign relations committee, said in a speech in favor of the treaty last Wednesday at Detroit, substituting for President Roosevelt.

The chief executive was asked to address a joint gathering of the Great Lakes Waterway Association and other groups favoring completion of the project as a means of opening a considerable route of interior America to ocean-going shipping.

Chairman Pittman said today he would have some "surprises" to disclose. His words contained an indication that the administration may be thinking of some concessions to the opposition, which thus far has fought the pact successfully.

Chances for Ratification. The issue provided one of the first major congressional setbacks suffered by Mr. Roosevelt. Despite considerable activity on his part, the last senate vote on the treaty was 46 for ratification to 42 against. Although a majority was in favor, ratification lacks 13 votes of the necessary two-thirds.

Pittman believes 13 can be persuaded to change their stand. "Nothing will be done this session," he said, "but there is a chance for ratification next session."

He added there would be "some changes" in the treaty if the bi-partisan opposition was to be won over sufficiently to win senate approval.

Any administration drive, of course, might be contingent upon the outcome of the November elections. But the congressional session will open 16 days before inauguration.

Newly elected President Roosevelt is linked with a recent announcement by A. O. Stanley, American member of the international joint committee, that this group would soon begin an investigation of a system of canals or canal deepening that would bring New York and the St. Lawrence into closer link with the proposed St. Lawrence development.

Basis of Opposition. Opposition to the treaty in the senate has been based primarily on four grounds.

Mississippi valley senators protested that limiting the flow from the Great Lakes through the Chicago drainage canal to 1,500 second feet would prevent the maintenance of a nine-foot channel on the Lakes-to-Greatway.

Opponents also contended some of the American share of \$272,000,000 in the total cost would go for Canadian labor and material in work on the Canadian side of the International Rapids dam.

A third point made by opponents was that Georgian bay, an exclusive sovereign territory of the United States, might be lowered the level of the Great Lakes if Canada ever built a 100-mile canal connecting the bay with a river that flows into the St. Lawrence below the rapids.

That the treaty might forfeit or cast doubt on the United States' exclusive sovereignty over Lake Michigan was a fourth major question advanced by anti-treaty forces.

Pittman Secrecive. Pittman would not disclose his suggested amendments in advance of his speech.

The St. Lawrence treaty was signed by the United States and Canada July 19, 1922. It provides for the joint construction of a 225-mile waterway from Lake Ontario to tidewater at the northern edge of the city of Montreal. A 27-foot channel would be provided.

The biggest engineering feature would be the routing of the canal past the international section between New York and the province of Ontario, at a point near the northern border of New York.

To the United States would be allocated \$272,453,000 of the total cost. Canada would put up \$270,976,000. This nation's share at the international section development would be \$215,492,000.

New York state would receive this country's full share of 1,100,000 horsepower of electricity proposed to be generated at the International dam. For this the state would pay \$50,000,000 toward the United States' share of the cost.

FAMED DESIGNER DIES IN POVERTY

Jean Patou, One-Time Style Arbiter, Made and Lost Fortune.

PARIS, March 8.—(UP)—Jean Patou, 47, once the most famous of all French dressmakers and style dictators, died in poverty tonight. He suffered an apoplectic stroke.

Patou averaged \$3,500,000 annually during the boom years, when half of his business was with America. But in recent years, as the foreign style business fell off, Patou, sometimes called "Young Capel," was forced to sell most of his establishments in France and close others because of bankruptcy.

Patou recently filed a petition for receivership of his business. He said he had arranged with his creditors to remain in business, but this failed to save him from financial ruin.

He was the first to employ American mannequins and for several years he used them exclusively. He said American women had all the grace and charm necessary to wear his clothes.

RUBBER WORKS STRIKE IS SETTLED AMICABLY. JEANNETTE, Pa., March 8.—(AP) Vice President A. C. Bowers, of the Pennsylvania Rubber Company, announced today an amicable settlement has ended a five-day "holiday" of its 870 plant employees.

Bowers said the agreement came at a conference between himself and a committee of the rubber union workers headed by Charles Seria. He said mutual promises had been made not to disclose the terms, but that a minimum wage scale was granted.

The plant will resume operations tomorrow, he added.

The workers left their jobs last Tuesday, demanding a general 10 per cent wage increase, recognition of their union, a check-off system for union dues, and a minimum wage rate.

Modern Life is a strain on DIGESTION

Smoking Camels Helps to Ward Off Indigestion Caused by the Breathless Pace of Modern Living

Faster—faster—faster goes the modern rush. People are "always on the go." No wonder indigestion visits so many from time to time. People can't seem to pause for proper eating. But here's one simple step every one can take! Smoke Camels for the sake of the positive beneficial effect

Camels have upon digestion. Camels stimulate and promote natural processes of digestion. They restore a feeling of well-being. And above all, with their matchless blend of costlier tobaccos, Camels bring a supreme enjoyment of mildness and flavor that you can know in no other way!

Modern life in one of its most attractive phases—the beautiful Trianon Room (above) at the Ambassador in New York—as seen during the dinner hour. Here are movie stars, women of society, leaders in industry and finance, aviators, champions—all the brilliant figures that make New York exciting. Louis, maître d'hôtel at this celebrated dining place, says: "Our guests come to the Trianon Room from New York and from all over the country to enjoy its exclusive atmosphere, good music, and fine food prepared and served for those who are accustomed to luxurious living. It is interesting to see how they agree in preferring Camels. Those who enjoy dining here also appreciate the delicate flavor of the finer tobaccos in Camels. Camels are an overwhelming favorite."

"DELIGHTFUL with meals and after," says Betty Chase, figure skater. "Camels make food taste better and help digestion along. And smoking a Camel is one of life's most agreeable experiences."

9 BUILDINGS BURNED IN CADIZ, SPAIN, RIOTS

MADRID, March 8.—(AP)—Officials of the Spanish ministry of interior were informed tonight that riots at Cadiz raided and partially burned nine buildings, including the churches of San Felipe and Santo Domingo, highly prized for their artistic value.

The officials said 18 persons were arrested on charges of being implicated in the disorders.

STATE DEATHS

JOHN KIMBER CORBIN. BIRMINGHAM, Ga., March 8.—John Kimber Corbin, 38, died in Oglethorpe, Ga., in the government hospital here after an illness of several years.

Mr. Corbin was born in Bartow county, but he had lived in Floyd county for several years.

The funeral services were held Sunday afternoon from the Floyd Springs Baptist church with interment in the adjoining cemetery. Rev. Mr. Brown officiated, assisted by Rev. H. B. Nations.

RUFUS TURMAN. LAFAYETTE, Ga., March 8.—Funeral services for Rufus Turman, 65, member of the pioneer Turman family of Lafayette, were held Thursday at the Trinity Methodist church with Rev. H. J. McCurdy and Rev. E. C. Duncan officiating.

He was the son of Mrs. J. T. Turman and the late Mr. W. H. Turman, who was engaged in the mercantile business in the Center Post community.

For the last year he has resided in Birmingham.

His wife he is survived by two sons, John W. and Hewitt Turman, of Birmingham; his mother, and two sisters, Mrs. J. B. McConell and Mrs. Will Littlejohn, of Lafayette.

Interment took place in the Trinity cemetery.

MRS. E. B. BURETT. AMERICUS, Ga., March 8.—Mrs. Ella Burrett, 58, died at 10 o'clock Saturday. Death was due to pneumonia.

She survived four daughters, Mrs. J. T. Benford, Mrs. Rufus Bellare and Mrs. J. D. Baker, of Americus, and Mrs. Leonard Galt, of Jacksonville, Fla.; and four sons, W. H. Cropper, Paul Cropper and G. E. Cropper, of Americus, and L. E. Benford, of Americus, Tenn.; three brothers, J. E. Brady, of Macon, Ga.; E. Brady, of Oglethorpe, and A. J. Burrett, of Tampa, Fla.; two sisters, Mrs. A. J. Burrett, of Tampa, Fla.; and Mrs. W. H. Burrett, of Americus.

Funeral services will be held today at Little Bethel church, near Ideal.

Interment will be in the Riverside cemetery, assisted by Rev. E. L. Jenkins. Interment will be in the Riverside cemetery.

JOHN PARMORE. AMERICUS, Ga., March 8.—Funeral services were held today at Rylander Methodist church for John Parmore, 53, who died Friday of pneumonia. Rev. H. B. Brooks officiated. Mr. Parmore was a prominent farmer residing in the 17th district of Sumter county.

An Honest Product

"Quality provides that satisfaction which comes only from good work well done."

(From the book "Standards of Business" by Elwood E. Rice, LL.D.)

THE products of the early craftsmen and guild-workers expressed character, originality and skill. Whether they wrought in leather, precious metals or stone—in textiles, wood or glass—honesty in workmanship and artistic perfection was their goal.

Now we live in an age of machinery and large-scale production, but the same pride in honest workmanship survives and inspires high grade manufacturers today. They still consider the excellence and sterling worth of their products as of prime importance.

The Rice Leaders of the World Association is a group of such reputable manufacturers—largely companies with ownership-management, in which the spirit of personal interest, close contact, and responsibility to each customer continues to prevail.

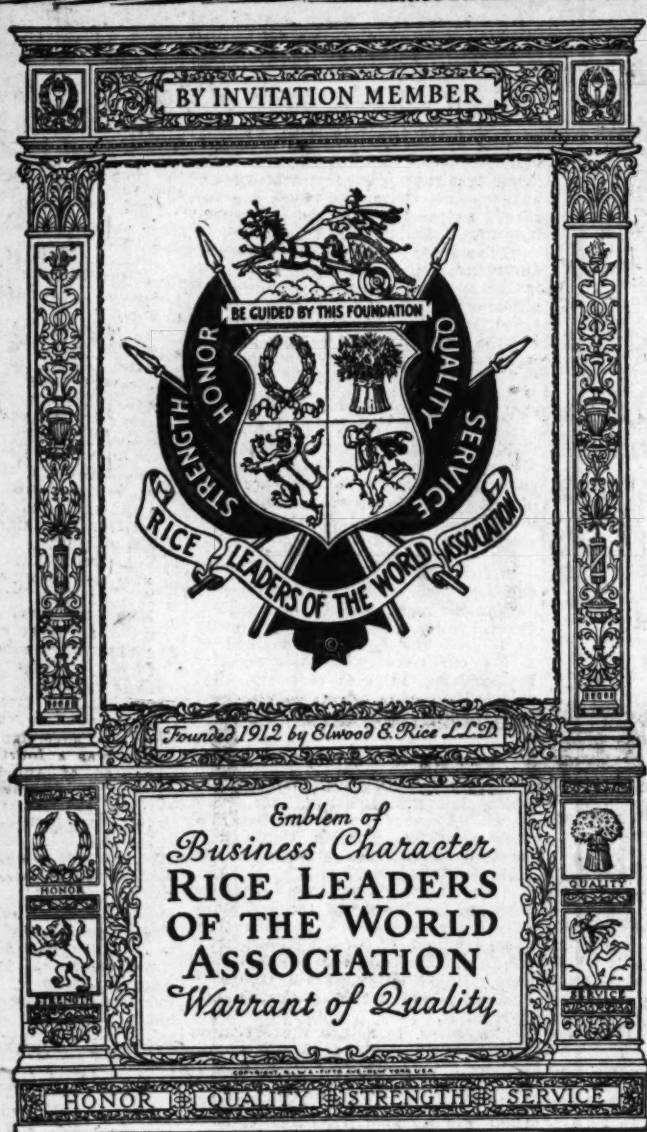

Individually and collectively, these concerns are setting a timely, constructive example to American Industry in general. To the painstaking care of craftsmen, they have joined the accuracy of present-day methods, and materials chosen from the ends of the earth for their fitness. Their membership is a pledge to you of fair treatment, and an assurance of Honest Products. Their dealings are conducted in strict accordance with the following

Qualifications for Membership:

- HONOR:** A recognized reputation for fair and honorable business dealings.
- QUALITY:** An honest product, of quality truthfully represented.
- STRENGTH:** A responsible and substantial financial standing.
- SERVICE:** A recognized reputation for conducting business in prompt and efficient manner.

These standards, set forth by word and heraldic symbol in the Association's Emblem of Business Character, reflect the best in good business procedure. Any institution which faithfully adheres to such principles has fully earned the right to your respect and confidence.

The Emblem of the Rice Leaders of the World Association appears in members' catalogs, literature and advertisements—on their stationery, salesmen's cards, checks and products. Look for it. Wherever seen it identifies concerns whose executives are men of strong personality and character, with whom you will find it a pleasure to deal. The Honest Products of such manufacturers bring service and satisfaction to every distributor or user.

To commemorate the Association's Twenty-Fifth Year, its Emblem has been placed in the above classical design, for use on special occasions.

The Following Manufacturers Are BY INVITATION MEMBERS:

GRUEN WATCH MAKERS GUILD
Gruen VeriThin and Wrist Watches
TIME HILL, CINCINNATI, OHIO

C. F. RUMPP & SONS, INC.
Fine Leather Goods
PHILADELPHIA, PA.

THE STIEFF COMPANY
Silversmiths—Goldsmiths
BALTIMORE, MD.

PENN WORSTED COMPANY
Silk Yarns and Fancy Twists
PHILADELPHIA, PA.

HUNT-RANKIN LEATHER CO.
Fine Calf Leathers
BOSTON, MASS.

BLOOMINGTON LIMESTONE CORP.
Indiana Limestone
BLOOMINGTON, IND.

FAULTLESS CASTER COMPANY
Artistic Metal Furniture Trimmings
Furniture Casters of All Kinds—Truck Casters
EVANSVILLE, IND.

THE HALOID COMPANY
Photographic Papers of Quality
ROCHESTER, NEW YORK

BOGER & CRAWFORD
Mercerized Yarns
for Fine Hosiery & Underwear
PHILADELPHIA, PA.

France Passes 150,000 Troops Within Gun Range of Nazis

War Council Session of Cabinet Mobilizes Land, Air, Sea Forces

Mussolini Offers Aid in Event of War in Exchange for French Support Against Sanctions; Poland Pledges Support to Paris.

Continued From First Page.

Paris, March 8.—(AP)—Premier Sarraut today announced that France had mobilized 150,000 troops within gun range of the German frontier.

The premier said that the mobilization was a precautionary measure in the event of a rupture of the Locarno pact.

"The cabinet session of the German government," he said, "was a purely technical one, and it is not to be taken as a sign of any change in the German position."

"The cabinet session of the German government," he said, "was a purely technical one, and it is not to be taken as a sign of any change in the German position."

German Artillery Unit Marches Into Violated Zone

Into the heart of the Rhineland marches the German artillery unit which is shown entering Cologne shortly after Reichsfuehrer Hitler renounced the Locarno pact and ordered his army to occupy the demilitarized zone. Telephone brought the picture from Berlin to London and radio delivered it in New York. (Associated Press photo.)

Into the heart of the Rhineland marches the German artillery unit which is shown entering Cologne shortly after Reichsfuehrer Hitler renounced the Locarno pact and ordered his army to occupy the demilitarized zone. Telephone brought the picture from Berlin to London and radio delivered it in New York. (Associated Press photo.)

formulating a united protest to Germany, will prepare action to be taken by the League of Nations council.

It will consider also the advisability of negotiating with Germany on the basis of Hitler's peace offers, including mutual demilitarization of Germany, France and Belgium, non-aggression pacts, air pacts and German re-entry to the League.

By the first article of the treaty negotiated at Locarno, by which are linked Germany, Belgium, the British empire, Italy and France, Germany confirmed a willingness to observe dispositions of Articles 42 and 43 of the treaty of Versailles, which stipulated demilitarization of German territories on the left bank of the Rhine and on the right bank.

The zone comprised territory between the river and the line traced 50 kilometers to the east.

The treaty of Locarno, by virtue of its Article 42, can only be ended by a communication made in Berlin yesterday to the League of Nations majority.

Despite these formal arrangements the government of the Reich by the communication made in Berlin yesterday to representatives of the signatory powers has just repudiated this treaty by a unilateral act.

Questioned by the French ambassador at the moment when the notification was made to him, the German minister of foreign affairs announced, moreover, that the German government proposed to send small detachments into the demilitarized zone as a "symbolic gesture."

In fact, the appearance of important military forces has already been reported in several localities of the zone.

The German government has thus intentionally broken Article 43 of the Versailles treaty and the first article of the Locarno pact.

In consequence, and conforming to Article 4 of this last treaty, the government of the republic has the honor to appeal to the League council to take the necessary measures to enforce the Locarno pact.

Because of the need for haste it would be obliged if you will take all necessary measures so the council can meet with the shortest possible delay.

(Signed) PIERRE-ETIENNE FLANDIN.

Further out Peachtree, the student demanded that he be let out of the car, Griffin quoted him as saying, and a general fight ensued in which the youth was shot. The two men dumped him out on the sidewalk in front of Tyree's home and he managed to crawl from there to the front porch, where he was found, he told Griffin.

Anderson is a member of the Phi Gamma Delta fraternity and is seeking a mechanical engineering degree. J. O. Caser answered the call and are working on the case.

Conflicting stories. Patrolman Stovall reported that the youth told conflicting stories of his wounding.

He first said, according to the officers, that two men took him from the dance, shot him and threw him on the porch. Later, Stovall said, he told the officer that two men picked him up at the corner of Piedmont and Tenth street and "took him for a ride."

Dr. M. L. Brittain, president of Georgia Tech, after talking to Anderson last night said the boy declared he was held up by two armed men at the corner of 10th and Peachtree streets. He said when he resisted one of the men shot him, according to Dr. Brittain.

night, his three friends in the car, all negroes, refused to pay the bill. Pulling guns, they further demanded that Johnson hand across his money. The holdup fares "escaped" with \$130 of the cab company's money and \$150 of Johnson's personal funds.

A combination of modern communication systems and quick action by two radio patrolmen last night led to the arrest of a grocery store burglar in the act of rifling the store.

Patrolmen E. S. McCray and C. H. Allen arrived to answer a call at 553 Fraser street and found Charles Harper, 22, of 80 Richmond street, a negro, within the store. Harper was booked on charges of suspicion of burglary.

Henry Johnson, negro, cab driver, pulled up at an address on Cornhill street shortly after 11 o'clock last

MAN PACTS VIOLATED IN EUROPE RECENTLY

Solemn Pledges Have Been Cast Aside by 3 Great Powers.

By The Associated Press. Open or tacit denunciation of treaties by signatory nations, such as that of Germany in respect to the Locarno pact Saturday, is not unusual in recent world history.

Only a step removed from formal denunciation is treaty violation, an act charged against Italy and Japan, among other nations, in the last few years.

An outstanding instance of denunciation issued from Chancellor Hitler a year ago when he formally denounced the military clauses of the Treaty of Versailles, the pact which ended the World War. His recantation of the Rhineland was characterized by the allies of World War days as a "violation" of the Versailles treaty.

Premier Mussolini, of Italy, was charged with a violation of the League of Nations covenant when he initiated his war in Ethiopia; he was accused, too, of rupturing sundry treaties and "understandings" with Ethiopia, France, Great Britain and other nations having interests in Ethiopia.

As late as last December Japan announced the nine-power treaty, drawn in 1922, never has been fully effective. Last month Senator Pittman, of Nevada, charged Japan in its conquest of Manchuria had violated the League covenant, the Kellogg-Briand pact to outlaw war, and the nine-power pact.

By virtue of the obligations imposed by the covenant, treaty denunciation is an act which has been coupled closely with the resignations of Japan and Germany from the League. Germany's resignation was effective last October, Japan's last March.

Latest of the new treaties, constantly in the making, to be published are the British-German naval treaty and the Russo-German mutual assistance treaty. Hitler Saturday proposed other new treaties, non-aggression pacts to guarantee the peace of western Europe, Premier Mussolini, too, has been proposing new treaties, notably a four-power pact similar to that suggested by his brother-in-law in Germany.

The new cabinet, succeeding that of Keisuke Okada, which was shattered by the recent military uprising, will include Hirota as premier and foreign minister and Terauchi as minister of war, and Admiral Osami Nagano as minister of navy, it was stated.

Hirota had already yielded somewhat to the insistence of the military to postpone on an attempt to renounce the League of Nations and the gravity of the times and the necessity for renunciation of Japanese foreign policy.

He had issued a statement saying that "the present empire situation requires independent and positive readjustment of our foreign relations in order to liquidate this emergency."

Hirota and other civilians whom he had chosen for his cabinet met with Terauchi and Nagano this morning to discuss how far the veteran former prime minister would yield to the army and navy's demands that he pledge a more vigorous foreign policy and increased national defense program.

Although the navy's pressure was less vigorous than the army's, it was learned that Admiral Nagano emphasized that naval expenditures probably must be increased.

The newspaper Nichi Nichi asserted that Hirota agreed "to a certain extent."

The newspaper Asahi declared Lieutenant General Terauchi demanded as a condition for his entry into the cabinet, that Hirota approve a new national defense program, "including exact figures in money and men."

Hirota had only agreed to discuss general principles.

SHINGTON MARCH 6.—(U. P.) Walter Ferguson, Tulsa, Okla., banker and former newspaper editor, whose wife died of heart disease at a hotel here last night.

Arrangements were made to send the body tomorrow to Tulsa, where it will be buried Wednesday for funeral services and burial.

Ferguson, 50 years old, was the son of Thompson B. Ferguson, a territorial governor of Oklahoma, who died in 1914.

After proper recourses to the League of Nations council in case of a violation would decide what kind of help they would extend to the nation threatened with invasion.

"Progressively the liberation of occupied territory anticipated for 1935 was ended in 1937. The League of Nations was sufficient. In approving evacuation five years ahead of time, France gave a striking proof of its desire to improve the relations between the two countries."

"Nevertheless the German government declared itself incapable of meeting its reparations obligations and thus threw upon the League of Nations the burden of the expense involved in reconstruction of the devastated regions."

"But the wounds of war healed little by little. The League of Nations, however, had rendered people prudent for the victims of deception. Moreover, in recent years, the acts of Germany have been in singular contrast with its promises."

"Germany continued to assert it was animated only by the most peaceful intentions. Yet Germany quit the League of Nations with a spectacular flourish and later broke with the League of Nations."

"The next year it re-established obligatory military training and at the cost of gigantic effort and heavy sacrifice, reconstructed its grand army in the shortest possible time."

"In 1936 Germany took its place in the European collective security system. For the last six months we have vainly urged Germany to take part in an air pact. No matter what offers came from Paris or London, Germany evaded them just that same."

"Since the end of January the government over which I preside, like the government which preceded it, has given ample proofs of its desire to negotiate with Germany toward liquidation of an accumulation of problems."

"The foreign minister made this clear in the chamber of deputies."

"Only a few days ago, on February 28, a Parisian newspaper printed an interview with Chancellor Adolf Hitler performed this task immediately."

"The French government assented to this request."

"It was only yesterday that the news was made public for the first time. We awaited the arrival of those precise and definite proposals which were to permit us to ascertain the nature of this gesture and the friendly method by which better relations could be re-established."

"It was in view of this situation that the French ambassador was summoned to the Reich foreign ministry and given yesterday morning the memorandum by which the German government repudiated unilaterally the Treaty of Locarno and announced its intention of immediately putting its decisions into effect."

"In order to justify itself, it involved the French-Soviet pact of mutual assistance and gave it an entire new meaning."

"The French government has for more than a year submitted the Franco-Soviet treaty to the approbation of other nations and received unanimous confirmation that it was no violation of Locarno. But what does that mean to Germany?"

HITLER WINS SUPPORT OF MILITARY LEADERS

Continued From First Page.

An eager Germany, thrilled by Hitler's abrogation of the Locarno pact yesterday at a special session of the reichstag and his sending of an army into the hitherto demilitarized Rhineland.

Hitler, somewhat pale, and his face never relaxing in its seriousness, sat impassively as Von Blomberg paid one personal tribute after another to Der Fuehrer.

Referring to Hitler's offer to sign a 25-year nonaggression pact with France and Belgium, Von Blomberg admonished: "May common sense, not passion, guide the decisions of European statesmen. The acceptance of Der Fuehrer's offer will secure the peace of Europe."

An unusual feature of the address was a brief tribute to the late King George V of Britain, whose "spirit of true chivalry" the officer praised. Another foreign leader he mentioned was the late Marshal Pilsudski, of Poland, whom he described as a "pathfinder for international understanding."

A large section of the war minister's speech was devoted to extolling the qualities of the German soldier. He said: "More is expected of him than of any other soldier."

At the same time he warned youth against "the false romanticism of a happy, jolly war" and told them instead, "war today destroys the flowers of humanity and brings gain neither to the victor nor the vanquished." He also warned against "seeing a hero in every veteran."

General Von Blomberg closed with a long appeal for peace and with assurances to assembled diplomats that Germany harbors only the most peaceful intentions.

"We want to show that a strong Germany is the safest guarantor of peace, freedom and honor," he said. "In making ourselves strong we are merely following the example given for many years by other peoples."

"Fault Not Ours." "The fault for a race in armaments therefore certainly does not lie with us. Whether peace or war dominates the world depends not upon us as the most recent past and the present time clearly teach."

"Upon our strength, however, depends German peace. We desire no war of aggression but we do not want to have to fear a war of defense. New Germany, too, desires that war may disappear as an instrument of politics and as a moulder of human fate."

Hitler reviewed honor companies of the army, navy and air force after the exercises and was enthusiastically cheered by thousands of spectators lining Unter den Linden.

Germany could occupy the position

WHAT ABOUT
OUR NEXT
GOVERNOR?

Shall we elect somebody hunting the job, or shall we hunt the right man?

I want a Governor who has no other thought than to attend to that job; who is not bothered about how his action will affect his political future, but solely how they will affect the general good—a man of character, sense, judgment, honor.

There must be thousands of Georgians who feel as I do. If you do, write me. Perhaps we can all get together and pick the man to put the state government in Georgia on a plane where we can again feel it's great to be a citizen of Georgia.

Help Kidneys
Don't Take Drastic Drugs
Your Kidneys contain a million tiny tubes or filters which may be endangered by sugar or drastic, irritating drugs. Be careful if functional kidney or bladder disorders make you suffer from Getting Up Night, Nervousness, Loss of Pee, Leg Pains, Rheumatic Pains, Dizziness, Crises Under Eyes, Neuritis, Acidity, Swelling, Smarting or itching, you don't need to take drastic measures. Now there are the most modern advanced treatments for these troubles. A Doctor's prescription called Cystex (Blue Box). Works fast—safe and sure. In 48 hours it must bring you vitality and is guaranteed to make you feel years younger. It is not weak or money back on return of empty package. Cystex costs only 35¢ a dose at drug stores and the guarantee protects you.—(adv.)

Hitler Gives Nazis Their Marching Orders

Rhine Seizure Doesn't Mean War, Associated Press Writer Asserts

Only Unexpected Panicky Action Can Set Spark, Veteran Journalist Says in Authoritative, Simple Survey of Pact Violation Repercussions.

Hitler Gives Nazis Their Marching Orders

A few minutes after Adolf Hitler told the Nazi reichstag the Locarno pact is dead and sent his troops into the demilitarized Rhineland, the cameraman caught him giving the Nazi salute to his goose-stepping soldiers on a Berlin street. The picture came by telephoto to London and thence by radio to New York. Associated Press photo.

and September of next year and into the active military service beginning October 1, 1937.

NAIS SEEK TO EASE LITHUANIAN ISSUE
BERLIN, March 8.—(AP)—The official German news agency announced tonight that efforts had been started to normalize the long-strained relations between Germany and Lithuania.

Conversations have been held, it was stated, to improve the tone with which newspapers and other publications and radio stations have handled discussion regarding statesmen, governmental measures and events in the two countries.

It was announced that the two governments agreed this should be done so that relations between them can be normalized and negotiations regarding outstanding problems and measures of one or the other side can proceed in an atmosphere of reality and quiet.

Learned War Lessons.
"We have learned bitterly of war servitude and the disgrace which accompanied missing battalions. We have in the present-day Germany no nameless forces which can unobtrusively in the world, we have the single goal of being able to work in security and quiet for peaceful reconstruction of the new Reich."

"This work is the rearing of upstanding, clean, and industrious and brave men. We ask nothing from the world except to be evaluated according to this standard. Unilateral military agreements and sanctions are preparations for future explosions."

"The Germany of Adolf Hitler is already strong today—stronger than Germany was ever before—perhaps no stronger in the number of battalions, guns and airplanes, but infinitely stronger in unity, force of belief and will."

"In that, we soldiers see the richest harvest of new Germany. Our labors now and the future will serve these goals."

Some quarters attached importance to von Blomberg's statement that one-sided alliances and sanctions are forces that prepare the way for "future explosions."

They did so because of reports emphasized by the German news bureau that France is preparing sanctions along with appeals to the League and to Locarno signatories.

Colonies Thought Next.
Some sections of thought among foreigners held that the question of colonies was even before—perhaps no stronger in the number of battalions, guns and airplanes, but infinitely stronger in unity, force of belief and will."

Rhine Seizure Doesn't Mean War, Associated Press Writer Asserts

Only Unexpected Panicky Action Can Set Spark, Veteran Journalist Says in Authoritative, Simple Survey of Pact Violation Repercussions.

(Editor's Note: Frank H. King, chief of the London bureau of the Associated Press, a veteran foreign correspondent and for years an observer of the European scene, in the following dispatch analyzes the crisis facing Europe because Adolf Hitler scrapped the Locarno treaty Saturday by remilitarizing the Rhineland.)

By FRANK H. KING.
(Copyright, 1936, by Associated Press.)

LONDON, March 8.—Reduced to its simplest terms, Europe's new crisis resulting from Germany's military occupation of the Rhineland, scrapping the Locarno treaty and the final military clauses of the Treaty of Versailles, does not mean war.

Another Sarajevo—assassination—or some such panicky action during the next few days before the governments can recover from the shock of Adolf Hitler's dramatic coup might plunge the continent into bloody conflict before the peace can get together to put machinery for maintaining peace into operation.

But across Europe governments were working to prevent panic and, barring the unexpected, informed observers believed tonight that grave as the situation may be, it does not justify fear that Europe faces another Armageddon.

Late tonight I talked with American staff correspondents of the Associated Press, stationed clear across Europe, from Rome, to Berlin, Paris and the Rhineland itself.

Getting behind the alarms of official news and commenting the news of governments that any spark may explode the powder-kags of Europe's ever-increasing armed camps, there was an agreement that the situation was not a local outcome of what has happened in the last 36 hours.

All day today American ambassadors were conferring with their posts conferring with foreign offices of the respective capitals and kept Washington abreast of the developments.

Germany has goose-stepped about 20,000 troops into the Rhineland as a "symbol" that the last military clause of the Versailles treaty was now being violated. That was the territory toward the western frontier is now under the unfettered control of Hitler's government.

Swiftly, as an answering "symbol," France today marched 50,000 troops from their barracks to form along her Rhine frontier.

Armies Face Each Other.
There the two armies face each other. French and German troops tonight were separated by the span of a single bridge instead of the former demilitarized zone of 31 miles.

Belgium called the military leaves of the frontier garrisons. No other military moves were reported.

The most serious aspect of the whole crisis is that, short of actual invasion, Germany has placed France face to face with her last legal case against Germany for defense of the Versailles treaty.

In Paris tonight the government prepared to "go the limit" to defend its treaty rights—but it stated significantly that this action must be with the other signatories of the Locarno pact and within the framework of the League.

The wheels of the Geneva machinery were already moving, and interest centered on the meeting of the League council at which Germany probably will be subjected to indictment for its grave unilateral violation of treaty obligations.

France will call for sanctions. Anthony Eden, Britain's foreign secretary, will join in condemning Germany—but whether Britain would participate in any kind of sanctions remains problematical.

One of the most important developments to date is the swift improvement in Franco-Russian relations, as result of Hitler's coup. The new north European crisis also seems likely to turn attention from Mussolini's Ethiopian war—and it may give him a more free hand in Africa.

Effect On Diplomacy.
France expects full British support at Geneva, but the only hint as to Eden's attitude, aside from his categorical condemnation of Germany, is that the League should "study" the situation.

In Moscow, the view is held that the Franco-Russian understanding has been sealed by the German move, and while ratification of the Franco-Russian mutual assistance pact by the French senate will be a long time, eventual approval is considered assured.

Moscow's official view is that a "grave" crisis has been created, observers at the Kremlin do not expect an open conflict to result.

France, alone, can punish Germany in several ways without resorting to arms.

First, with or without the other Locarno signatories or League members, France could impose economic or financial sanctions of both, on Germany, if the council declares Germany a treaty violator. This was decided by the council April 17, 1935, in condemning Germany for adopting conscription contrary to the Versailles treaty.

Second, France could refuse to trade with Germany, or to supply her with raw materials, or to buy from Germany only as much as she sells to Germany. Last year France purchased from the Nazi state 1,737,000,000 francs worth of goods and sold only 1,049,000,000 francs worth.

On an even trade balance, Germany would lose 688,000,000 francs or \$48,000,000. The French believe Germany's economy is in a fragile state, and that any loss would be serious.

Third, France might induce her allies to use similar methods to hamper German business.

Little Entente Alarmed.
In middle Europe, Germany's renunciation of the Locarno treaty alarmed officials and the press of the Little Entente, and the future was viewed with undisguised anxiety.

Rumania's first reaction was to summon the defense council for tomorrow, to study the condition of the country's armament.

In Vienna, the Czech newspaper Tag warned that a situation which was as bad as 1914 was much worse yesterday.

Germany's friends in southeastern Europe, however, rejoiced. The Hungarian press was jubilant, giving unanimous expression to the opinion that the day of equality between winners and losers in the World War was fast approaching.

Even in Austria, which cannot forget its private quarrel with Germany over alleged Nazi attempts to gain the upper hand, the press spoke approvingly of Hitler's move. But in official circles the German action was said to demonstrate that the Nazis were regarded with increasing suspicion.

The internal governmental crisis in Yugoslavia—where shots were fired Friday at Premier Stoyadinovich, who then revised his cabinet—has been the country's attention; nevertheless there was an increasing indication of sympathy for Germany's aim.

While the future is uncertain, it is easy to trace Germany's steady

Luther Explains Hitler Move to Newsmen

Dr. Hans Luther, German ambassador to the United States and the man who signed the Locarno pact for Germany, shown Saturday at Washington in an emphatic pose at his press conference as he told newsmen that France had violated the pact by a military alliance with Russia and that Germany in reoccupying the demilitarized Rhineland with troops was attempting to establish a broader base for peace in Europe. Associated Press photo.

PACT HAD TO GO, SEN. BORAH SAYS
Idahoan Does Not Believe Abrogation Implies War Intended.

WASHINGTON, March 8.—(UP)—Senator Borah, republican, Idaho, former chairman of the foreign relations committee, expressed the opinion today that the military restrictions placed upon Germany by the treaty of Versailles had to end, but that Germany's action in throwing them off did not necessarily mean war.

"I do not believe we should put the war aspect on the moves of Germany," said Borah.

"Of course no one would wish to prophesy either way as to the result. But I have a strong feeling it does not mean war."

"The Versailles treaty had to go. The status quo had to have an end under that treaty. That has been apparent for a long time."

Official government quarters, continued to refrain from any comment on the situation, although privately they indicated the feelings of Senator Borah were shared generally.

Reich Military Strength Is Set at 247,000 Men
PARIS, March 8.—(UP)—Germany's military strength totals 247,000 men, according to a semi-official French estimate made today by General Henri Albert Nissel, famous wartime division commander in the French army.

General Nissel's estimate distributed the Nazi state's forces as follows: 120,000 brown shirt militia; 650,000 regular army troops; 300,000 border police; 200,000 men in labor camps; and 120,000 militarized police.

TO THE COMMON STOCKHOLDERS OF REMINGTON RAND INC.

The Common Stockholders of Remington Rand Inc. of record as of the close of business on February 15, 1936, and March 6, 1936, are entitled, in accordance with Prospectus dated February 19, 1936, and Information Supplementary thereto dated February 25, 1936, to subscribe to a limited amount of a new issue of 4 1/4% Debentures dated March 2, 1936, maturing March 1, 1956, with Stock Purchase Warrants attached entitling the holder to purchase 15 shares of Common Stock for each \$1,000 of Debentures during a period of eight years at prices as follows:

(a) \$25.00 a share on or before March 1, 1938;
(b) \$27.50 a share thereafter and on or before March 1, 1939;

FRENCH 'WAR' PROTEST RECEIVED BY LEAGUE

Continued From First Page.

reputation of the Treaty of Versailles "had undermined public confidence in the security of peaceful order."

Obligations Reaffirmed.
Officials also recalled that Great Britain and Italy at the Stresa conference in a declaration reaffirmed all of their obligations as guarantors under the Locarno treaty, which Adolf Hitler has now denounced, and declared their intention "should the need arise faithfully to fulfill" these obligations.

In accordance with a decision reached at the Stresa conference, Britain and Italy subsequently introduced a joint resolution into the League council asserting that "no power can liberate itself from treaties without the consent of the other parties."

The resolution declared Germany had failed in her duty respecting treaties and "condemned any unilateral repudiation of international obligations." The council unanimously adopted this resolution with Denmark abstaining.

Germany has been invited to attend the meeting although she no longer is a member of the League. Acceptance of this invitation would bind Berlin to "carry out in full good faith any award or decision that may be rendered."

The text of the French note was immediately communicated to all states which are members of the council and to Belgium and Germany.

BEIJING, TOO, URGES LEAGUE SESSION
BRUSSELS, Belgium, March 8.—(AP)—The Belgian cabinet at a special meeting today decided to submit Germany's violation of the Locarno treaty to the League of Nations and asked that the League council be summoned into session promptly.

Premier Paul Van Zeeland will attend a meeting in Paris Tuesday of members of the Locarno treaty.

TWO TENNESSEE MEN ARE SLAIN IN HOTEL
MORRISTOWN, Tenn., March 8.—(AP)—Shot in what authorities said was the aftermath of a card game, two men were killed here today in a hotel.

Police Chief D. Frank Richardson said Woodrow Bundren, 28, of near Tazewell, shot Charles Frost, 38, of near Rogersville, and then killed himself in a near-by room.

Frost was killed outright and Bundren died in a hospital, the officers declared. He said only two bullets were fired from the .38-caliber pistol.

"Frost had been winning—had about broken up the game, as well as we can piece it out," Richardson said. He declared there were "about six" others present when the shots were fired.

The officer said that after firing the first shot, Bundren went into the room of Green Harris, buried himself on the bed and shot himself in the forehead.

Atlanta Glass Company Prepared To Meet Requirements

M. & M. IS AGENT FOR REFRIGERANTS

Warehouse Renders a Varied Service To Manufacturers and Brokers.

The impending return of spring and the consequently increased use of refrigerants will bring with it the greater need for dependable "round-the-clock" service in this field, declares Henry W. Gullatt, president of the M. & M. Warehouse Company, Atlanta's oldest merchandising warehouse establishment.

Since it is the manufacturer's agent for four of the six principal refrigerants on the market, and the only such agent in the state to handle more than one of the six, the M. & M. Warehouse is peculiarly well equipped to serve Georgia refrigerant users in all fields. It has rendered a highly specialized refrigerant service in recent years to such users as ice cream plants, ice plants, dairies, hotels, bakeries and others, as well as to refrigeration engineers who service all types of mechanical refrigeration units.

Mr. Gullatt urges refrigerant customers of the M. & M. Warehouse Company to check over their system now, in preparation for the coming warm weather, so that they may determine their refrigerant needs well in advance of the season when they will be needed most.

In this field, the M. & M. Warehouse offers a 24-hour service—a fact which has won for it a state-wide patronage. The first organization of its kind in Georgia to give "round-the-clock" seven-days-a-week service to refrigerant users, its clientele, Mr. Gullatt reports, has enjoyed a steady gain from year to year.

As one of Georgia's oldest merchandising warehouses, the M. & M. is equipped to render an unusually complete and diversified service to manufacturers and brokers. In addition to its tremendous storage facilities, it offers to its clients a many-sided service, which includes the handling of invoices, collections and credits, tasks formerly performed by the manufacturer.

Situated at 29 Haynes street, N. W., the M. & M. Warehouse prides itself on its easy accessibility, its operating equipment and the high standard of service it renders its customers. Its front platform, on Haynes street, is sufficiently large for the unloading and loading of 20 trucks at one time, and the other side of the building, with an A. B. & C. spur track alongside, has a covered platform where as many as 12 freight cars may be accommodated simultaneously.

Fireproof throughout, and thoroughly protected by a sprinkler system, the M. & M. building provides absolute safeguard against fire damage. Its personnel is thoroughly trained in its work, and all goods are given care

Stephens Shop Distributor Of Whooping Cough Remedy

John L. Stephens, proprietor, left, and Dr. J. R. Smith, originator of the whooping cough remedy which bears his name, are shown here standing in front of the Stephens Prescription Shop, 114 Peachtree Avenue. The Dr. J. R. Smith Whooping Cough Remedy is distributed through the Stephens store.

Wheel & Axle Alignment Company Bars Guesswork in Straightening

Guesswork in wheel and axle straightening, in so far as precision is concerned, is entirely eliminated under the Bear System, according to A. H. Murrell, of the Wheel & Axle Alignment Company, 581 Spring street, largest exclusive alignment shop in the city.

The Bear System, Mr. Murrell points out, is a highly specialized cold system treatment for the correction of misaligned wheels and bent axles and frames—a step-by-step method of checking, by the process of elimination, to bring the affected part back to manufacturer's specifications.

Shimmying, tire wear and "crawling" are but three visible evidences of the need for alignment, says Mr. Murrell. These and a variety of other automatic structural ailments, any of which may directly affect driving

from the time they enter the building until delivered.

Within the building, and on its platforms, the most modern equipment, including hand-trucks, four-wheel floats, dollies and special lift trucks are provided for handling of boxes, barrels, drums, marketing crates, rolls, etc., thus insuring the best of care at every stage of its handling. Three 6,000-pound capacity elevators serve all floors, making possible the speedy handling of goods to or from any part of the building.

Many of the nation's largest manufacturers maintain district sales offices in the M. & M. Warehouse building, under the same roof with their stocks, and thus are enabled to have their orders filled within a matter of minutes after receipt, due to this unusually close contact with the warehouse.

The management of the M. & M. Warehouse invites inspection of its facilities, and further invites query by manufacturers and brokers on any question relating to the storage and speedy distribution of their merchandise.

Counter-Height Filing Cabinets Combine Files and Counter

Save Floor Space

Many businesses require the service of customers at counters. GF counter-height filing cabinets covered with a continuous vinyl-surfaced linoleum—top can be arranged in practically any type of counter serving an ideal combination of efficient service to customers and saving of floor space.

SPEEDY SERVICE GIVEN BUILDERS

Structural, Ornamental, Colored, Wired and Safety Glasses Are Available

To building contractors, home owners, business executives, automobile owners and, in fact, all users of flat glass, the Atlanta Glass Company, its executives state, renders a service difficult to duplicate.

The Atlanta Glass Company, through the years since its establishment, has served builders throughout the southeast, fulfilling their glass requirements, has furnished accurate and dependable estimates to contractors, architects and owners, and has established an enviable reputation for flat glass service.

Every requirement of the home for glass is met by the Atlanta Glass Company. A special service is rendered in furnishing glass tops for desks and furniture, each glass cut exactly to fit, protecting the furniture from scratches and scars. Mirrors are now furnished in colors to enhance the beauty of the home; flesh-tinted mirrors, blue mirrors, green mirrors, or white mirrors may be made to order. Old mirrors can be resilvered and put to modern designs.

To automobile dealers, garages and private owners of automobiles, the Atlanta Glass Company renders a complete service and makes prompt repairs to windshields, side windows, and safety glass may be promptly and correctly installed by expert mechanics at the company's convenient shop located at 1040 Peachtree street, N. W.

LOAN FIRM SHOWS GAIN OF \$1,123,000

Jefferson Mortgage Company Boasts Big Advance in Shortest Month.

The Jefferson Mortgage Company, loan agents for the Investors Syndicate Company, reveals \$1,123,000 in new business during February, King Murphy, divisional manager, reports.

D. W. Watson, in charge of the Atlanta office of the Investors Syndicate, announces the latter firm is in the midst of the greatest expansion program in its history and is establishing more than 200 additional offices throughout the United States.

Mr. Murphy feels that in view of February being the shortest month in the year, the feat of securing over \$1,000,000 in new business is an indication of the rapidly improving business conditions in Atlanta and Georgia.

The total amount of new business written by the company for the year 1935 was \$161,575,000 as compared with \$129,400,000 in 1934. Capital, surplus and reserves increased from \$8,947,633.46 in 1934 to \$8,142,736.13 in 1935.

Collections on the investment contracts sold by Investors Syndicate showed an increase of 40 per cent in 1935 over 1934.

The Jefferson Mortgage Company is located in the Standard building and is ready at all times to render any advice to persons with mortgage problems.

BEAUDRY'S
Money Back Guarantee
USED CAR PLAN

Here is a partial view of the Ernest G. Beaudry used car lot at Spring and Harris streets, where the used car buyer will find an unusually varied list of reconditioned automobiles. Other units of the used car department are located at 265 Ivy street, near Baker street, and at 181 Walton street. Shown here, from left to right, are L. R. Muse, W. W. Lee and S. C. Abernathy, salesmen; Ernest G. Beaudry, T. T. Tucker, salesman; J. D. Mitcham, used car sales manager, and J. G. Morris, M. E. Rogers and R. R. Bryant, salesmen.

Used car sales, which have maintained a steady pace despite the severe cold and unfavorable traffic conditions of the past three months, experienced a sharp upward turn with the arrival of warm weather last week, according to J. D. Mitcham, formerly assistant sales manager of the new car department and recently named manager of the used car department of Ernest G. Beaudry.

At least one day of the past week, Mr. Mitcham states, the Beaudry used car department registered its biggest volume of sales in more than a year. While a large part of this is attributable to the "favorable weather conditions," he pointed out, "many of our buyers assure us that the wide variety of our offerings, and the unusually thorough reconditioning given our used cars played a major part in influencing their purchases."

On the three used car lots now maintained by Ernest G. Beaudry—at Spring and Harris streets, at 265 Ivy street, near Baker street, and at 181 Walton street—the prospective buyer will find approximately 270 used cars and trucks, providing an amazingly varied list of offerings in almost as many makes and models. This variety provides, in turn, a range in price sufficiently wide to fit any purse.

However, Mr. Mitcham points out, whatever the price, the cars offered for sale on the Ernest G. Beaudry lots without exception have been given a thorough reconditioning in the company's own special service shop, maintained for this specific purpose.

Mr. Mitcham states that L. McClelland is the manager in charge of the Spring and Harris street lot, and that J. N. Aldridge, formerly in charge of that lot has been transferred to the new car sales department. J. B. Foster is manager of the Ivy street lot, and Roy Holbrook is the salesman in charge of the used car department's Walton street unit.

Ernest G. Beaudry, "Twenty Years a Ford Dealer," announces this season's trade-ins are bringing to his organization the highest values in used cars. These are given a

Big Pre-Spring Upturn Noted By Beaudry Used Car Dept.

thorough overhauling and reconditioning in the company's own special service shop on the third floor of the Beaudry headquarters building at 165-179 Marietta street, N. W.

This shop, entirely separate from the Beaudry's new car servicing and for its Ford clientele, is efficiently manned by from 15 to 18 factory-trained mechanics, whose sole duty is to place trade-ins in first class condition for resale through the three used car lots. Here each motor is completely overhauled and put in A-1 condition, assuring the ultimate buyer of efficient operation. Its upholstery, its metal work, the top and all glass work—all are given equally careful attention, and no car is placed on the Beaudry lots until it is able to pass a thorough-going inspection.

This department, a counterpart of the Ford service shop, is one of the largest of its kind in the entire southeast, Mr. Mitcham states. Like its companion shop, it is fully equipped with the most modern machinery and apparatus, and the latest tools, each especially designed for a certain task in automotive maintenance. Cars which are reconditioned here thus are assured of the same high quality workmanship given the Fords which visit the other service department.

Mr. Beaudry and Mr. Mitcham invite prospective buyers of used cars to visit and inspect these facilities, and to see for themselves the thorough and painstaking workmanship expended on these cars before they are offered for sale on the company's three lots.

Mr. Mitcham states that the prospective buyer will know full well, in advance, the unusually high value offered in Beaudry reconditioned used cars.

Buying life insurance? Then ask us why more than half of our new business comes from old policy holders. They know!

Safe Driving Pledge

In the interest of accident prevention and safer conditions on the highways and in co-operation with the Safety Council of The Atlanta Constitution, I am making the following pledge:

1. To drive at moderate speed and on own side of road.

2. Not to pass cars on curves or hills.

3. To stop at stop signs.

4. Not to jump traffic lights.

5. In city traffic to be particularly watchful for pedestrians stepping into the line of traffic from parked cars.

6. Always to give hand signals showing my intention of turning to the left, to the right, or stopping, and not to leave the curb from a parked position without giving a signal.

7. To be fair to other drivers in all respects and to refrain from reckless driving.

THE ATLANTA CONSTITUTION

Fill out and mail this pledge to the Safety Council of The Atlanta Constitution, inclosing stamped, self-addressed envelope for return of windshield stickers.

URBAN LEAGUE

By JESSE O. THOMAS.

Leiter B. Granger, secretary of the workers' bureau of the National Urban League, arrived in Atlanta yesterday afternoon from Birmingham, Ala. He will be the speaker at 10 o'clock this morning before the Agass Bible Class of the First Congregational church, corner Courtland and Houston streets, according to Jesse O. Thomas, treasurer of the league.

Secretary Granger is making an extended trip through the south visiting industrial centers with a view of stimulating interest and activity of negro workers in the council. Through this approach to negro wage earners it is the hope and plan of the National Urban League to stimulate negroes with respect to the history and struggle of organized labor toward economic security and the technique of collective bargaining.

Negroes as marginal employees represent the economic insecure group of laborers in the nation. A larger percentage of negroes is unemployed and on relief in every urban center in America than the ratio of the white population to the total would justify. In New York city, for example, negroes represent a little more than four per cent of the total population and yet their number on relief approximates 14 per cent of the total relief roll. This is a fair sample of the comparative status of negroes throughout the country. Most of the established labor organizations national and international, affiliates of the National Federation of Labor, as an example, deny negroes from membership either by ritual or constitution.

It is the hope of this workers' council's program to convince the working population of the white group that the fortune of white labor will ultimately be conditioned by the unorganized and unprotected position of negro labor.

Some 42 cities have formed negro workers councils with a total membership of around 40,000. These councils are located in 17 different states. One of the features of the council movement is to establish in connection with each local class in workers' education, where the theory and practice of labor unionism is studied.

In the annual report of the Brooklyn Urban League, whose president is W. H. Baldwin Jr., one of the founders of the National Urban League movement, and who has been at one time president of the general education board and the Long Island railroad, 13 reasons are given why the Brooklyn league should be supported by the citizens of the community. The league was organized in 1916 as an interracial board to plan and carry out, through a trained negro staff, a program of social service among the negro people of Brooklyn. The 13 reasons follow:

"1. One of its first notable accomplishments was in getting the management of the Brooklyn Terminal very active in the handling of war supplies to engage a negro as personnel advisor in the handling of the negro negro seamen and other workers employed on the docks and in the warehouses.

"2. In 1920, Lincoln Settlement, which had operated a neighborhood house for the negro people of the negro district of the borough, decided to close its doors because of falling support. The league took over the management and finances of the settlement, and in 1927 the organization was formally merged and incorporated.

"3. The kindergarten, which had long been maintained by the settlement, was developed to the point of efficiency where the board of education was induced to take it over as part of the public school system. We still provide the rooms for this kindergarten.

"4. The day nursery, which was always a feature of the settlement's program, has been continued because its service to working mothers with small children. In 1933-34 some 6,000 child-days of care were provided.

"5. Due largely to the efforts of our staff and of certain of our board members, the Hudson Avenue Boys' Club was organized in 1928 to serve the territory adjacent to the settlement's home district.

"6. In 1929 we became interested in saving the Snyder Avenue Boys' Club as a center for the negro population in the Flatbush district. Since then we have financed and directed its program which has been expanded to include service to adults as well as to the boys.

"7. By co-operation in selecting the proper children, in arranging for their medical examination and in getting them to and from the railroad terminals, we have been able to get the Children's Aid Society and the Tribune Fresh Air Fund to include negro children from Brooklyn in their country vacation programs every summer.

"8. During the last four summers it has been able to get the use of a camp for the staff of June and has used it for vacations to mothers with children of pre-school age.

"9. As the result of the work done by one of our staff members in the children's court, its board of justices certified, upon our representation to them, to the need for a negro probation officer. One was appointed more than three years ago. One of

SKIES TO CLOUD OVER, WEATHERMAN AVERS

Cloudy skies with not much change in temperature will prevail over Atlanta today, according to predictions at the Candler field weather bureau. Spring-like weather brought thousands of motorists, picknickers and golfers out under sunny skies yesterday.

Yesterday's high of 68, reached in the afternoon, should continue most of today, the weatherman said, with the mercury not expected to go much below the low mark of yesterday, 42. Possibly showers are forecast for tonight and tomorrow.

YOUNG TRUCK VICTIM LAID TO FINAL REST

Final rites for Jimmy Blitch, 10, who died Saturday in Georgia Baptist hospital of a fractured skull suffered when he was struck by a truck last Friday morning on Central avenue, Hapeville, were held at 3:30 o'clock yesterday afternoon at the chapel of the Georgia Baptist Orphan's Home, Hapeville.

The boy was struck while going on an errand. The Rev. E. Z. Barron officiated, and burial was in College Park cemetery under the direction of Atwky & Lowndes.

BORAH WILL ENTER PENNSYLVANIA RACE

WASHINGTON, March 8.—(P)—Senator Borah, of Idaho, announced today that he was "going into Pennsylvania" in his pursuit of the republican presidential nomination.

His announcement came only a day before the military prize of the presidential preference primary in the Keystone state, where 75 republican delegates are at stake. The primary is April 28.

"I am going into the Pennsylvania primary," Borah said, "and will have candidates for delegate in the various districts."

our staff workers still maintains contact with the children's court and serves the adolescent court on call.

"10. Agents of both the War Department and the New Jersey Department of Institutions and Agencies repeatedly call on either our executive secretary or our industrial secretary to represent them in assisting and supervising persons who have been paroled from the military prisons or the New Jersey penal institutions and who have become residents of Brooklyn.

"11. In October, 1934, the Brooklyn Urban League induced entry lists of the city fusion party to join with it in pointing out to the municipal civil service commission that the requirements set forth for training and conductors for city subway service inadvertently eliminated negro men. As a result of these representations, the commissioners ruled that such men as had qualified and served as porter-conductors in the pullman service were eligible.

"The eligible list just published by the commission shows that 12 negroes have passed the examination.

"12. Brooklyn Urban League was organized just when the first wave of negro labor migration developed from the south. Thus the industrial department of the league was busy from the start in adjusting these immigrants to northern industrial life and in helping employed negroes to understand their new labor. And this problem of adjustment naturally spread through all the phases of a new environment and of relations with new neighbors, both white and negro.

"13. By the time that the depression developed our organization had become so important a part of the whole public life. Thus the industrial department of the league was busy from the start in adjusting these immigrants to northern industrial life and in helping employed negroes to understand their new labor. And this problem of adjustment naturally spread through all the phases of a new environment and of relations with new neighbors, both white and negro.

"14. During the period 1930-33 we served as the Brooklyn liaison agency of the Emergency Work Bureau.

"15. During the period 1930-33 we served as the Brooklyn liaison agency of the Emergency Work Bureau.

"16. During the period 1930-33 we served as the Brooklyn liaison agency of the Emergency Work Bureau.

"17. By co-operation in selecting the proper children, in arranging for their medical examination and in getting them to and from the railroad terminals, we have been able to get the Children's Aid Society and the Tribune Fresh Air Fund to include negro children from Brooklyn in their country vacation programs every summer.

"18. During the last four summers it has been able to get the use of a camp for the staff of June and has used it for vacations to mothers with children of pre-school age.

"19. As the result of the work done by one of our staff members in the children's court, its board of justices certified, upon our representation to them, to the need for a negro probation officer. One was appointed more than three years ago. One of

There is no need to wait from day to day to see the cartoons in this contest. You can get all the 30 official cartoons now. They're yours for the asking. They'll come to you promptly, together with complete details, in response to your mailing the coupon. That's your first step toward YOUR SHARE OF \$4,200.00 IN PRIZES!

ANY MAN, WOMAN, OR CHILD IS ELIGIBLE TO ENTER AND WIN IN THIS "GAME OF MOVIE TITLES." No special skill is required. No genius is needed. All you do is name the cartoons in accordance with the rules. Don't delay. Get the complete details. See all 30 cartoons in advance. Mail the coupon—NOW!

What Movie Title Does This Cartoon Represent?

PICK A NAME FOR THIS CARTOON

Diamond Jim
The Littlest Rebel

The Trail of the Lonesome Pine
Exclusive Story Ceiling Zero

Take a good look at this sample cartoon above. It will not count in the Movie Title Game, but it will give you an excellent idea of the type of cartoon that Thad Taylor, well-known artist-humorist, has prepared for the contest. If you can solve this cartoon—you have a very good chance to win the magnificent Dodge and the huge CASH FIRST PRIZE!

Now what does this cartoon suggest? Two hoboes in a RAIL Road Yard "gettin' LONESOME"—and even "beginnin' to PINE." Then don't overlook the "T" on the side of the car. Glance at the list of titles—read them aloud—and we'll bet that you pick THE TRAIL OF THE LONESOME PINE. So did we!

Simple, isn't it? And loads of fun for the whole family. Did you ever think you could make money with such delightful ease?

Win It Easily! Quickly!
Just Name 30 Cartoons!
No Letters! No Essays!
You Can Win In a Few Hours!

Here's a contest for everybody—MEN, WOMEN, CHILDREN! Here's a contest where you name 30 cartoons, 30 clever puzzle-cartoons, each representing the TITLE of a recent Movie. You do not need any knowledge of motion pictures. You can enter this contest and win, even if you have never seen a Movie in your life. Only the Title is represented. The cartoons, do not, in any manner, depict a scene or part of the picture they represent! Remember this is a "GAME OF MOVIE TITLES" . . . The Titles only!

No need to wait for the cartoons to appear daily in The Constitution. You can see all the 30 official cartoons before you decide to take part. You can get the cartoons, together with the official rules and all details merely upon request. (For your convenience, a coupon is printed in the lower right corner of this page.)

Tomorrow, you'll find more news of this fascinating NEW contest. But don't wait! GET ALL 30 CARTOONS RIGHT NOW!

Neatness Doesn't Count! No
Number Problems, No
Word Building!

You'll enjoy this new Game. The rules are simple, the cartoons are amusing and interesting. Send for all 30 cartoons and rules right now. Mail the coupon today.

Make up your mind to win this grand prize of \$1,000.00 CASH, and a 1936 DODGE "Beauty Winner." This grand prize is offered as the top prize, heading a list of 100 prizes totaling \$4,200.00, which the Atlanta Constitution is offering the 100 lucky winners!

CHIEF MAY TAKE STAND IN OWN DEFENSE TODAY

Early End of Case Sought By Police Committee Members.

Chief of Police T. O. Sturdivant probably will be called to the witness stand in his own defense tonight if his trial on charges of illegal release of Mayor cars, incompetency and inefficiency reaches that stage.

Police committee members, hearing the charges, already have held five sessions and beginning at 7:30 o'clock tonight at the police station, the sixth session will take place.

Hope that the Sturdivant trial will be concluded and that a verdict in the case may be returned following the conclusion of testimony by witnesses tonight was expressed yesterday.

Councilman G. Dan Bridges, chairman of the committee, reassured his disposition to prevent a long drawn-out trial, and it was regarded as certain that committee members generally grown on any move to prolong the case.

Finch Retires.

George Finch, chief defense counsel, yesterday remained reticent concerning his plans for tonight, and police committee members of course could give no indication as to when the taking of testimony will end.

Finch already has put 54 witnesses on the stand at two previous defense hearings, and it is anticipated that 27 additional ones will be added to the list tonight.

End of the trial in prospect but whether it will be concluded at tonight's hearing in time for the committee to reach a verdict was a matter of conjecture and depended in a large measure on the expedition with which witnesses are disposed of at the meeting.

Finch has been co-operative in previous hearings and it is regarded as certain that he will attempt to conform to committee wishes if he does not think such accord might injure his client.

Rebuttal Planned.

Bridges and City Attorney Jack C. Savage are to confer this morning concerning the production of rebuttal witnesses believed necessary to answer defense contentions that Sturdivant is an honest, efficient and capable police chief.

It is believed that Solicitor-General John A. Boykin and Assistant Chief A. Lamar Poole, himself under charges of incompetency and inefficiency, may be called to the witness stand.

Sturdivant already has entered a categorical denial to all the charges made against him, and will repeat them if he takes the stand in his own defense.

Virtually every member of city council, who has not already appeared either as a prosecution or defense witness, is expected to be summoned for tonight's meeting.

Finch also may deliver more fully into various phases of the firing of tear gas bombs by Sturdivant on a crowd congregated at the Exposition Cotton Mills during the textile strike.

If the Sturdivant trial is completed tonight, it is probable that Poole's trial will be opened within the next few days, probably the earlier part of next week.

WHY
ALDREDGE
FOR
SHERIFF?
BECAUSE—

● HE IS UNDOUBTEDLY THE BEST MAN IN THE RACE—
Look them over and decide for yourself.

● HE IS THE CANDIDATE OF NO MAN, GROUP OR INTEREST—
Despite Harry Barfield's statement to the contrary.

● HE HAS NOT MADE WILD PROMISES OF JOBS HE CAN'T DELIVER—
Others are said to have promised jobs to hundreds.

● HE IS NOT A HABITUAL OFFICE-SEEKER OR OFFICE-HOLDER—
Sheriff Lowry has been in office for twenty years.

● HE HAS NEVER DRAWN A SALARY FROM THE PUBLIC—
Sheriff Lowry has drawn \$250,000 from you.

● HE IS QUALIFIED BY HIS YEARS OF DEALING WITH PUBLIC—
How has Harry Barfield ever served the people?

● HE WILL BRING A FRESH VIEWPOINT TO THE OFFICE—
Sheriff Lowry in his 20 years is a rat.

● HE HAS NO SYMPATHY FOR THE CRIMINAL ELEMENT—
Cal Cates, policeman, urges freedom for criminals.

● HE WILL CO-ORDINATE COUNTY'S LAW ENFORCEMENT AGENCIES—
Sheriff Lowry has never done anything in this wise.

These and Many Other Reasons Recommend This Outstanding Man for

Says Note of Certainty Needed in Pulpit

REV. W. H. BORING.

Changing Order Sweeps Off Ideals, Wesley Memorial's Pastor Avers

Editor's Note: This is the 50th in a series of articles dealing with Atlanta pastors and their services. Additional articles will appear on succeeding Mondays.

Old ideals have been swept away by a changing order, and the note of certainty is missing in the pulpit and pew, the Rev. W. H. Boring, pastor of Wesley Memorial church, said yesterday in his sermon, based on the Psalm, "How shall we sing the Lord's song in a strange land? If I forget thee, O Jerusalem, let my right hand forget her cunning. If I do not remember thee, let my tongue cleave to the roof of my mouth."

He said, in part:

"This is a pathetic song indeed, a people required to sing the song of Zion in a strange land, these Hebrew people with nothing but memories of the past, home and lands gone, exiled as far as they could see, like slaves yet sorrow has its song. Like slaves they sang for comfort, and so it is today for those that are away from God. If they have once tasted the good things of God, how they long for the Father's house and the touch of a father's hand, but alas for these exiles, the dark days grow darker, the sun is eclipsed, there is distress on every hand, and no light appears to guide them home again, and so it is in the church today, old ideals have been swept away by a changing order, the note of certainty is missing in the pulpit and pew and our song is the song of a hopeless people. Yet my brethren we should be encouraged by the story of these Hebrews in a strange land singing their passionate song of helplessness for we learn from the word that God brought them out and build-

POLICE ARE SEEKING
LOVER OF FINE CIGARS

Police yesterday were searching for a burglar with yen for fine cigars and good candy.

A thief, who police said evidently let himself be locked in at closing time, later escaped from Blick's Health Center, at 671 Peachtree street, with cigars, cigarettes and candy valued at \$250. He made his exit through a broken window, officers said.

The thief failed to break open the office safe, after knocking off its combination.

Earnings Increase.

NEW YORK, March 8.—(AP)—American Smelting & Refining Company and subsidiaries, smelters and producers of nonferrous metals in the west and in Mexico, today reported net income for 1935 of \$13,768,153, equal to \$3.01 a share on the common stock, compared with \$1,583,202, or \$1.63 a share in 1934.

FLORIDA K. C. OPENS
STATE ESSAY CONTEST

JACKSONVILLE, Fla., March 8.—(AP)—Florida State Council, Knights of Columbus, has announced its eighth annual essay contest open to students in Catholic high schools and academies of the state.

This year's subject, chosen by the Most Reverend Patrick Barry, bishop of the diocese of St. Augustine, is "A Short Sketch of the Life of Bishop Augustin Verot, First Bishop of Florida, and the Condition of the Church in Florida During His Administration of the State."

Essays will be judged by Professor A. J. Hanna, of Rollins College. The winner will be presented with a silver loving cup. The contest closes May 1.

METHODIST INSTITUTE
WILL CONVENE TODAY

More than 1,000 representatives of churches in this area are expected to attend the annual Atlanta Methodist Young People's Institute which opens at 6:15 o'clock tonight at the Druid Hills Methodist church, North and Seminary avenues.

The institute will offer courses in worship, missions, evangelism, leadership, citizenship and community service and will continue until Friday night. A dinner will precede opening of the institute tonight.

Talks by ministers, supreme and special musical programs will feature the institute, of which Mrs. Frank Wells is dean. Mrs. Jesse Moore, Mrs. A. B. Zuber, Mrs. Celeste Wallace, and Mrs. S. L. Nix, and two sons, C. A. Soyce and L. J. Soyce Jr., of Fitzgerald, Ga.

Funeral services will be held at 3:30 o'clock this afternoon at the Spring Hill chapel of H. M. Patterson & Son with the Rev. Harold C. Smith officiating. Burial will be in Hollywood cemetery.

L. G. SOYEZ, 72, DIES
AT RESIDENCE HERE

L. G. Soyce, long-time resident of Atlanta and actively identified in Baptist church affairs, died early yesterday morning at his residence, 3 Campbell road, N. W., at the age of 72 years.

He is survived by five daughters, Mrs. D. L. Campbell, of Fort Lauderdale, Fla.; Mrs. L. E. Moore, Mrs. A. B. Zuber, Mrs. Celeste Wallace, and Mrs. S. L. Nix, and two sons, C. A. Soyce and L. J. Soyce Jr., of Fitzgerald, Ga.

Funeral services will be held at 3:30 o'clock this afternoon at the Spring Hill chapel of H. M. Patterson & Son with the Rev. Harold C. Smith officiating. Burial will be in Hollywood cemetery.

PROTECTION BY POLICE
ASKED FOR PICKETTEERS

A letter requesting police protection for picketing employees of the American Hat Manufacturing Company, 100 Trinity avenue, was sent yesterday to Acting Chief of Police M. H. Horne by Albert J. Goss, representative of the United Hatters, Cap and Millinery Workers International Union.

The letter sought the protection "in the interest of peace and to prevent any unfortunate consequences."

MRS. WATSON FULLER
WILL BE BURIED TODAY

Funeral services for Mrs. Watson Fuller, long-time resident of Atlanta, who died Saturday at the age of 81 years, will be held at 2 o'clock this afternoon at the Spring Hill chapel of H. M. Patterson & Son with the Rev. R. Wiley Scott officiating.

Mrs. Fuller, until failing health forced her to lessen activities, was prominently identified with the Central Congregational church, which she joined in 1887. She was a member of a prominent Indiana family, and had lived here since 1881.

Burial will be in Oakland cemetery.

CANDIDATES PLANNING COURT TESTS AWAITED ON THE RADIO WAVES TODAY

FINAL PLEA FOR VOTES IN NEW DEAL CASES

30,000 Voters Expected To Cast Ballots in County Primary Wednesday.

A final burst of oratory and exhortation for support will be delivered today and tomorrow by candidates for county offices whose fate will be decided by the democratic white primary election Wednesday.

With six contested offices to be filled and with only two days remaining for campaigning, the aspirants plus political speeches by the dozen. More than 30,000 voters are expected to cast ballots Wednesday. Many stores in the city will remain closed until 10 o'clock on the morning of the election in order that employees may vote.

Commissioners George F. Longino and J. A. Ragdale, seeking re-election, yesterday were termed the "watchdogs of the county treasury" and their fight against the alleged spending orgy of the majority faction was pointed out as reason enough for their being kept in office. Their opponents, Mayor Pro Tem. Ellis Barrett and Roy LeCraw, denied again they are allied with any clique or group.

"When I am elected one of your commissioners I will render the same conscientious and attentive service which I have given the people of Atlanta," Barrett stated. He promised to improve roads and reduce the deficit.

LeCraw admitted he has the support of Commissioner Edwin F. Johnson, majority faction leader, but said "Johnson would support anyone against Longino." He declared he will represent the people from all sections fairly if elected.

Councilman Ed G. Decker yesterday reiterated his platform of business efficiency in the office of clerk of the superior court, asserting that the clerk's office under the superior court will not be forced to appoint a special officer to care for the trust funds handled by the clerk's office.

He pointed out that Fulton grand jury indicted charged J. W. Simmons, incumbent clerk, with inefficiency and Decker declared no such inefficiency could exist in the office of the clerk because "my deputies have been nipped individually for particular jobs. It will never be necessary for any grand jury to criticize the clerk's office under my administration," he said.

Simmons asserted he has rendered good service during the years he has been in office and promised to continue in office and promise to continue in office and promise to continue in office.

Third candidate in the race, promised changes in the office to facilitate court procedure.

The four candidates for sheriff, James I. Lowry, incumbent; Alderman J. C. (Mott) Aldredge, Cal Cates and Harry C. Bartfield, Municipal Court Judge, and Judge Bell and his Court Judge, Prime Abiding Principle.

Alderman Robert Carpenter and Judge T. O. Hathcock and A. J. Hartley, running for Hathcock's place on the municipal commission and clerk of the superior court are scheduled to appear at College Park tonight and at the Ella W. Smilie school on North avenue where Aldredge will be host. Other meetings will be held Tuesday night also.

U. S. Awaits Rulings on Guffey Coal Act and 1933 Securities Laws.

WASHINGTON, March 8.—(AP)—The New Deal faces two major tests this week in the supreme court with the constitutionality of the Guffey coal and the 1933 securities laws at issue.

In nine hours of argument starting Tuesday, government lawyers will defend legislation authorizing federal regulation of the soft coal industry, including hours and wage labor, and federal supervision of sale of stocks.

Opposing counsel are ready to contend that the acts among other things violate states' rights and are an improper delegation of legislative authority.

The court will meet tomorrow to deliver opinions. Decisions are possible in nine cases, including the government's anti-trust suit against the sugar institute.

The justices also will act on 15 petitions for a review of lower court decisions. These include a ruling by the circuit court of appeals at Chicago setting aside a government order barring Arthur W. Cullen, Chicago trader, from operating on the nation's markets for two years.

It was the Guffey act that produced the celebrated letter last session from President Roosevelt to the coal and means committee chairman, saying:

"I hope your committee will not permit doubts as to constitutionality, however reasonable, to block the suggested legislation."

That brought on a flurry of only a few weeks after the President had signed the act, and the act's invalidation had seemed to return the nation to "horse and buggy days."

Opponents asserted the President was attempting to push legislation through regardless of the constitutionality of whether the members thought it was constitutional.

Arguments will be heard Tuesday on the securities act. J. Edward Jones, New York broker, who unsuccessfully challenged the legislation in lower courts, will be represented by James I. Beck, former republican solicitor-general, and Harry O. Glasscock, of Enid, Okla. Solicitor-General Stanley Reed will argue for the government. Each side has been allotted one hour.

7 Hours for Debate.

Seven hours have been set aside for the debate on the Guffey act Wednesday and Thursday. Legislation will be assailed by Charles I. Dawson, former Kentucky federal district judge, who held some New Deal legislation invalid, and Frederick H. Wood, New York attorney, who successfully argued before the supreme court for the government in the "gold clause" suits, and opposed the government with respect to the NRA litigation. John Dickinson, assistant attorney-general, will speak for the government.

A final decision on the two cases will be forthcoming in April or May.

In the near future, appeals are expected on cases involving constitutionality

to The Georgia Peach...

2000 years, B. C., or such is the fanciful myth, on Mount Olympus in the valley of Thessally... Pomona, goddess of fruit... as a birthday privilege wished for the perfect fruit. Her favorite color, fragrance and flavor were combined... and a luscious peach was conceived.

Long was the search for the ideal clime---from Asia through China---across Europe and finally the red soil of Georgia was chosen... Thus today from Rabun Gap to Tybee's Light the prodigal peach has at last become the "Georgia Peach."

Again for the tenth year, in a state of seven million commercial-bearing peach trees... Rich's pays homage to the favorite of the gods at blossom time with its annual Peach Festival.

Joe Hucheson Is Severely Ill With Flu in Texas Hospital

LEWIS DEFENDS CROWN AGAINST McAVOY FRIDAY

Light-Heavies Billed for 15 Rounder; Canzoneri in Action.

NEW YORK, March 8.—(AP)—John Henry Lewis, Phoenix, Ariz., makes his first defense of the light heavyweight title against Jack McAvoy, middleweight and light heavyweight titleholder of England, in the feature bout on this week's national boxing program.

Lewis, who captured the crown from Bob Olin about four months ago, and McAvoy are scheduled to go 15 rounds or less at Madison Square Garden Friday night. McAvoy was a sensation in two previous garden appearances, outpointing Al McCoy and knocking out Babe Risko, the middleweight champion, in a non-title bout.

In the only other fight of importance, Barney Ross, ruler of the welterweight division, meets Gordon Wallace, Canadian welterweight king, in a ten-round non-title affair at Vancouver, B. C., Wednesday night.

Garden's Plans For Title Bout Are Mussed Up

By Alan Gould.

NEW YORK, March 8.—(AP)—Madison Square Garden's search for a heavyweight challenger to meet James J. Braddock this year, predicated upon the prospect that Joe Louis will whip Max Schmeling and then postpone a championship bid until 1937, took on three-day proportions today.

Purely for speculative purposes, Matchmaker James J. Johnston, who has the champion under exclusive contract, listed the prospects in the following order:

(1) Jack McAvoy, the British belt, who fights John Henry Lewis for the American light heavyweight title next Friday night in the Garden, and then sails for England to tackle the British heavyweight champion, Jack Peterson.

(2) Primo Carnera, still "muddling along" under long-term contract to the Garden.

(3) Phil Brubaker, west coast's latest sensation, and perhaps the best of the younger American heavyweight prospects.

MATCH REMOTE.

The possibility of merging rival promotion interests and matching Braddock with Louis this year, not yet been abandoned. But the match is remote, as things stand now. Louis is in no hurry to try lifting the title. The Garden knows this. Braddock, who has the champion under contract, went out on a limb in inviting a Louis match. Meanwhile Mike Jacobs and the 20th Century Club grabbed Max Schmeling for the Brown Bomber's next big outdoor shot, thus spilling the Garden's plans to match Schmeling with Braddock for the title.

From a build-up viewpoint, McAvoy is the leading alternative, if the Garden hopes to make the next heavyweight championship fight a big-money affair. If Jack gains his two immediate objectives, by beating Lewis and then Peterson, he will be the logical man.

PHIL BRUBAKER.

The State Athletic Commission is on record as rating Louis the No. 1 title challenger but if the negro seeks to side-step the issue this year the fistie fathers hardly could stand in the way of the Garden's substitute plans.

"From all I hear, Brubaker will be worth watching," said Johnston. "The field is wide open for a first-class young heavyweight. We are negotiating for Brubaker to make an appearance in the Garden this May against a heavyweight who will offer the youngster a real test."

Carnera's technical knockout of Izzy Gustanza was not convincing enough to embelish the huge Italian's chances of getting another title chance. Primo, in effect, is the Garden's emergency man. The big fellow is willing to tackle any opponent offered.

Where's George?

—gone to

DAVISON'S MEN'S SHOP

Getting down to bare facts, those famous 5-points-of-quality socks are only 27c pair, 4 prs. for \$1 at Davison's.

BREAK O'DAY!

When Bobby Jones played in the first Masters' golf tournament at Augusta, he had been out of competition for some years.

But before the competitive tournament on the course he had designed, he had been shooting below par in a few friendly rounds here and yon.

After the tournament he said: "There was this difference. In the rounds at East Lake and at other courses where I had scored well, I was not thinking about the game. If the ball fell on the side of a bunker or in it, I just walked up and hit the ball.

"But playing in the tournament set one to thinking. It was different. A ball which landed in a bunker or at some difficult angle, caused one to think: 'Now, look here, old man, be careful about this. This may cost you two or three strokes if you don't do it correctly. And the result was a tightening up.'"

Bobby Jones had never thought of the situation when in competition. And when in competition he was easily the finest golfer the game ever saw. No one has come along since who even approaches his form or his ability.

He will play again next month at Augusta in the third of the Masters' tournaments. It is too much to expect that the miracle will happen and he will find his game. It might.

I think he could practice a few hours per day for three or four months and do it. But to do so would be contrary to his wishes. He won all golf had to offer and retired. Golf from now on will be his recreation. But at that, I'd like to see him in front again. Which is one of the penalties. He left such an impression on golf in the minds of those who saw him, they will be wishing they could see Jones play when they are old, doddering and garrulous.

"JUST THIS FAR"

In the 1935 Masters' tournament, Olin Dutra, then the open champion, had the tournament and the \$1,500 first prize money in his pocket. He had one round to go.

And then it happened. His game went all to bits. Very little bits. And that evening he was explaining it. He was holding up his hand and measuring a distance between his thumb and forefinger. The distance measured was not more than half an inch.

"Just that little bit, Bobby," he was saying. "He had driven from the first tee to find his ball had landed just half an inch behind a tree root. He got it out and the ball landed behind a tree.

From then on he encountered all the little things which can happen to make a good golf game go to bits. In pitching to a green his ball struck the edge of the green. A half inch farther and it would have remained on the green. It rolled off.

At another spot he fired for the green. The ball struck a pebble and skidded to one side into the water.

He was playing good golf. There was nothing wrong with his game. Yet he was scoring high. He was losing the tournament and \$1,500. And he was measuring that evening the little distance which started him on the way to disaster.

"That's what happens," he said. "You read of experienced golfers who are leading a tournament and who suddenly have a high-score round and lose. You wonder what can happen to their game. My experience was an example. Just a few little breaks and a golf game is gone."

SARAZEN'S LATEST ATTACK.

Gene Sarazen, always doing something to irritate his fellow man, now charges the professional golfing field dresses very erratically and with poor taste.

The Gad Fly of Golf views with disdain the long pants which the boys wear. Of all the golfing crew of note, only he and Bobby Jones wear knickers.

At a recent tournament I stood with Sarazen and developed stitches in the side listening to his running comment on the sartorial effects produced by the professionals who were wandering about at play or practice.

The type shirt favored was one buttoned at the neck and yet worn without a tie.

Just then Wild Bill Mehlhorn strolled by wearing his cowboy hat and checked blouse.

"Next," said Sarazen, "they will wear a lion's skin and maybe a coonskin hat. It used to be a pleasure to see the way golfers dressed. Now it's a pain."

LIKE DANDELIONS.

"If golf balls could be made to look like dandelions or cigaret ends, the game would be a cinch.

"The average golfer can walk out to the course, take a few swings at the dandelions or cigaret ends and make no mistakes. His swing is easy, fluid and contains no faults.

"When he gets up on the tee his mind starts in to work.

"See the little white ball," it says. "Well, in order to hit that you've got to have a straight left arm. You've got to shift the weight just so. You've got to get the hip pivot in just ahead of the down swing. You've got to keep your head down and you've got to follow through."

"All this serves to make the man at the tee just a big stiff whose muscles are pulling this way and that and who can't be natural and easy as he was a few minutes before when he was swatting the dandelion blossoms and the cigaret ends. He stops being himself and tries to be something he has read in a book or been told, or he tries to look like the illustrations he has seen in golf books. So, he forgets to be himself and he forgets how to swing which is something anyone knows."

Let me hasten to say the words in quotes are the words of a well-known golfer. They are not mine. All I know about golf is a lot of things which makes me behave like the subject discussed above.

But there is sound logic in the theory.

Most of the better professionals never took a lesson. They learned how from imitation and from developing their own game.

Golf lessons are necessary. The beginner makes a serious mistake not going to a professional. His start should be under instruction.

But it would be simpler for all concerned if golf balls could be made to appear as dandelion blossoms.

Cleveland Beats Pelicans Again, 4-1

NEW ORLEANS, March 8.—(AP)—The Cleveland Indians hung up their second straight victory over the New Orleans Pelicans today, 4 to 1, behind the six-hit pitching of Lefty Lee. Al Milnar and Clint Brown. Brown gave up only a scratch safety. Lee granted three blows and Milnar two.

Score by innings: New Orleans . . . 000 000—1 6 1 Cleveland . . . 000 300 10x—4 7 1

Drake, Boyd, Droschoeff and McDougal, Lefty Lee, Milnar, C. Brown and Pylak, Sullivan.

Three-Eye Leader Resigns Position

ST. LOUIS, March 8.—(AP)—L. J. Wylie, of Decatur, Ill., resigned today as president of the Three-Eye Baseball league at a meeting which did not make final plans for the 1936 season because of doubt as to what Peoria, Ill., planned to do.

Peoria, a member last year, was not represented and Ross C. Harriott, of Terre Haute, Ind., said he understood Peoria had been asked to join the Western League. Another meeting has been called for next Sunday but its location has not been definitely determined.

TECH TURNOUTS AT CAGE GAMES SHOW BIG GAIN

Jackets Pull 4,000 More Admissions; Georgia Draws 17,500.

NASHVILLE, Tenn., March 8.—(AP)—A neck-and-neck basketball race boosted crowds at six Southeastern conference schools this season, a survey revealed today, but failed to prevent a decrease in total attendance for the entire circuit.

The 1935 total attendance for the circuit season was approximately 149,645, while this year the crowds totaled about 138,482.

Until within 10 days of the season's end five teams—Vanderbilt, Kentucky, Ole Miss, Mississippi State and Auburn—had a chance to finish the regular campaign in front of the parade.

Decrease in the customers was reported at Kentucky, L. S. U., Tulane and Mississippi State. The Wildcats and Louisiana were two of the leaders in attendance in 1935 and the drop this year was so great that it overbalanced the gains of other schools to a great extent.

Alabama reported a total attendance of 17,000, same as last year, having a sellout for every game.

NO 1935 FIGURES.

Georgia drew 17,500 customers, but had no figures for comparison with last season. Sewanee attracted 12,000 fans but likewise reported no 1935 total.

Georgia Tech, Tennessee, Vanderbilt, Auburn, Florida and Ole Miss showed a rise in attendance. The highest percentage increase was at Tennessee where twice as many were attracted, the 1935 total being 7,500 fans.

Although reporting a 33 per cent decrease, Louisiana State, running into trouble after a fine season in 1935, drew 22,020 through the turnstiles, the high mark for the loop. Kentucky's Wildcats fell off about 20 per cent, the decrease being attributed partially to icy winter roads. Too, the cats were below their usual invincible form, losing two games within the loop.

VANDY IMPROVED.

Vanderbilt, leader until its last game with Kentucky, drew 11,515 fans as against 9,579 last season. Georgia Tech reported its increase of some 4,000 over the 1935 total of 3,888 was due to playing in the campus gym rather than downtown.

Ole Miss attracted 12,000 to 11 games, 1,000 more than the preceding season, while Mississippi State fell off about 25 per cent its 1935 attendance total reading 12,500.

Auburn, ranking second until a few days before the end of the season, reported an increase of 5 per cent, but said cramped quarters were the only drawback to much larger crowds.

Several coaches were of the opinion that the tournament hurt attendance during the regular season, holding that little importance was attached to the games because the title would be determined in the meet.

HAMBY, PARTNER SECOND IN SHOOT

ST. PETERSBURG, Fla., March 8.—(UP)—Thurman Randall, Dallas, and A. L. Knight, Fort Worth, today captured the long-range two-man rifle matches, completing the three-day American and Southeastern small bore championships here in St. Petersburg.

The Texans shot for a score of 387, 13 X to 387, 12 X, totaling by Charles Hamby, Atlanta, and W. J. Summerall, Waycross, Ga.

E. N. Moore, Detroit, and C. H. Vincent, Utica, Mich., won the short-range two-man match with a score of 798. Randall and Knight were second in the event with 795.

T. F. Bridgeford, St. Petersburg, took the Swiss match with a score of 87. Randall, of Dallas, was second with 83.

SNAPPY BOXING ON TAB TONIGHT

T. Hubert, 160 pounds of black dynamite, clashes with Prince Albert, New York middleweight, in the first of two main matches at the new arena, Piedmont and Ellis tonight. The bout is scheduled for eight rounds.

Tom Briscoe is being brought up from south Georgia to meet Roy Dunn, Atlanta favorite, in the other eight-round main event. Dunn boasts a long winning streak here.

In the preliminaries, Slugger White meets Battling Seobie, in a six-round match; Jim Stetson meets Tiny Gaston in a four-rounder, and Fighting Galloway will swap blows with Honey Boy Lee in another four-rounder.

The card will begin at 8:30 o'clock.

Army Eleven Invades Yale Bowl Next Year

NEW HAVEN, Conn., March 8.—(UP)—The Yale football schedule for 1937 calls for the return of Army to the bowl next year, as well as one out-of-town game with Harvard at Cambridge on November 20, it was announced tonight.

Army will not play Yale this coming season due to Yale's rotating schedule with Navy.

The schedule: October 2—Maine; 9—Pennsylvania; 16—Army; 23—Cornell; 30—North. November 6—Brown; 13—Princeton; 20—Harvard at Cambridge.

'Jaycees' Inspect Game Farm Today

The "game farm" committee of the Atlanta Junior Chamber of Commerce will make an inspection of the state game farm in DeKalb county today. Under the leadership of Duncan Peck and Allen Barr, the committee of 20 "Jaycees" is campaigning to raise funds for the erection of a fence for the game preserve.

Today's inspection will be conducted by Zack D. Cravay, managing director of the Georgia Department of Game and Fish.

Paul Waner Signs Pirate Contract

SAN ANTONIO, Texas, March 8.—(AP)—Paul Waner, star outfielder, put his signature on a Pirates' contract today, ending all salary difficulties in the Corsair's ranks.

Waner had objected to a salary cut. He asked the same amount paid last year. He and President Bill Benavenger declined to state the figure in their agreement.

Only one player is still missing from the training camp. He is Lloyd Waner, recuperating from an illness at Oklahoma City, and not expected to report until the latter part of the week.

Illness of Slugger Blow to Cracker Hopes

A wire to Earl Mann from Mrs. Joe Hucheson to the effect that Big Joe was ill in a Fort Worth hospital and would be unable to join the Southern league champions for at least three weeks delivered a stunning blow to the Crackers at their Gulfport camp last night. The slugging centerfielder, shown above with Mrs. Hucheson, has been counted on for a big season. It may mean the Crackers will have to purchase another seasoned gardener, unless one of the recruits come through. Hucheson is suffering from a severe attack of influenza. Constitution staff photo.

40 Teams Sign Al Williams Arrives To Bowl Here Saturday

More than 40 double teams are already entered for The Atlanta Constitution handicap doubles tournament that will be played at the local alleys, and more than 60 are expected to sign to bowl during this week.

The entry list is growing added momentum each day as the tourney draws near, with more than 100 couples expected to roll their five games in this novel event.

The Constitution doubles bowling tournament affords local bowlers the opportunity of the season in rolling in a tournament that is confined strictly to doubles competition. There is no doubt but that the rolling of the games in this event is most interesting as the entry list has shown a decided increase each year.

LATEST ENTRIES include Miss Tommy Thomas and Mrs. D. H. Overton, of the Ladies' Commercial league; Bruce Maples and W. Holmes, of the Southern league; and Archie Johnson and Le E. Bradford, of the Merchants' Dueskin league.

Separate divisions are bowled for the men and the women. The men's division is a scratch mark of handicap from 200 to 300. The women's division is a scratch mark of handicap from 100 to 200. The men's division is a scratch mark of handicap from 200 to 300. The women's division is a scratch mark of handicap from 100 to 200.

Five games are scheduled, with no entry fee other than the cost of the bowling ball. Bowlers are charged. Gold medals go to each of the winners in both divisions. The games may be bowled at either 2 or 5 o'clock in the afternoon or at 8 o'clock in the evening.

Bowlers from every league in the city are eligible to bowl and have handicaps. Out-of-town bowlers and league bowlers, who do not have league averages for 15 or more games, will be eligible to bowl but will not be entitled to handicaps.

While the entry list will remain open all week, bowlers are urged to file their entries as soon as possible in order that the handicaps may be properly computed in advance.

Lookout Player Visits Crackers.

GULFPORT, Miss., March 8.—Bob Loane, Chattanooga outfielder, stopped here tonight en route to the Lookout camp at Sanford, Fla.

Loane renewed an old friendship with Bill Schmidt, Cracker pitcher, who lives in the same town back in California which is Berkeley. Loane has been traveling six days already.

Manush Complains His Back Is Sore

SARASOTA, Fla., March 8.—(AP)—Two bits of bad news lengthened faces today in the Boston Red Sox training camp.

Heinie Manush, outfielder newly acquired from the Washington Senators, complained of a sore back and didn't even lift a bat in practice.

The other bad item was Manager Joe Cronin's announcement that the management and Bill Werber, base-stealing third baseman, were "further apart than ever" concerning terms. Werber is the team's lone holdout.

CRACKER GIANT CAN'T JOIN CLUB FOR WEEKS YET

Mrs. Hucheson's Message Fails To Divulge Nature of Illness.

By Jack Troy.

GULFPORT, Miss., March 8.—Big Joe Hucheson, regular outfielder whom the Crackers were counting on in a big way this summer, is suffering from a severe attack of influenza in a Denton, Texas, (near Fort Worth), hospital and will not be able to report for at least three weeks, according to a wire received today by President Earl Mann.

Just the bare information was wired by Mrs. Hucheson. President Mann communicated with Hucheson's doctor and learned more about his condition. Hucheson will be confined to the hospital for more than a week.

It is a terrific setback for the Cracker club, which has been progressing splendidly in spring training. For it means that Hucheson, unless he improves rapidly, will not get any spring training and probably won't be in shape to start the season.

PLANS UNKNOWN.

Just what steps President Mann will take to replace Hucheson in the early games will not be known until something more definite is learned. The big fellow will probably need considerable time to regain his strength.

It may be that he will be able to play after the first couple of weeks. In this case, it is likely that either Al Brown, young left-hander from Alameda, Cal., or Gerald McQuaig, of Douglas, Ga., will start the season in Hucheson's position.

If it develops, however, that Hucheson will have to miss more games than that, the Crackers may make a deal for Phil Wientraub, the big Jewish outfielder who is the property of the Cardinals.

The Crackers can get Wientraub for a price. And they will spend the cash if it is necessary, according to President Mann.

LOOK GOOD.

It is President Mann's opinion, however, that either Brown or McQuaig, two fine young prospects, may be able to fill in satisfactorily.

Brown is very fast and has a fine throwing arm. He is a pretty fair hitter. He was with the Crackers for a time last season but went on the voluntary retired list and returned home.

At Wheeling, the year before, Brown was voted the best ball player on a club by the fans. He also played with Norfolk with American League.

McQuaig has been having some trouble with his eyes and has been fitted for glasses. He can see better now. He played last season with the Crackers and finished the season with American League.

HITS BY DAY.

McQuaig was hitting .350 at Williamsport until they turned on the lights. His hitting fell off then to something like .280.

He believes he will be able to see better at night now. He was pretty much discouraged about his eye trouble last season. He worked awfully hard to make the Gulfport club and then found his eyes couldn't stand the strain of so much night ball. The Gulfport club played almost every night.

It was too cold for night ball the first month he was with Williamsport and he was going great until, as mentioned, they turned on the lights. He roomed with Gally French, former Knoxville outfielder and West Point athlete.

McQuaig arrived today. Other available players included the three Carrollton youngsters—Carl Todd, Alton Nixon and Charles Roberts. The three youngsters will be given a trial and probably will be farmed to Moultrie.

Wayne Black, of Copperhill, Tenn.; Joe Stevens, of Cedartown, and William Henry (Chicken) Prince, of Lanett, Ala., also came in.

President Mann was greatly impressed with the appearance of Roberts, who is a trimly built redhead. In fact, all three of the Carrollton boys are fine prospects.

STARS IN TOURNEY.

They really carried the main in the sandlot tournament at Charlotte, N. C., last year. They were responsible for the team getting into the finals with Gastonia.

Herb Pennock, president of the Charlotte club, liked all three and wanted to sign them. But the Crackers beat him to it.

Todd, Roberts are infielders, while Nixon is either a pitcher or outfielder. He is going to be given a trial in the outfield here.

S.I.A.A. Semi-Finals Scheduled Tonight

JACKSON, Miss., March 8.—(AP)—Two Kentucky and two Louisiana teams will battle it out in the semi-finals of the S. I. A. A. basketball tournament here tonight as a result of Saturday's tournament victories.

The semi-finalists are Murray Kentucky Teachers, Western Kentucky Teachers, Louisiana Normal and Louisiana Tech.

Some experts were even going as far as to predict that Brevity would develop into another Man O' War. His race at Hialeah park Saturday indicated they may be right. Discovery set the world mark of 1:43 1-5 in a 4-year-old under 123 pounds in winning the Brooklyn handicap at Aqueduct last year. Brevity, carrying only three pounds less, turned in the same time in his second race as a 3-year-old and won in a gallop. In his other victory, also at Hialeah, he ran the mile in 1:36.

Big Eight Confab Scheduled Today

A meeting of the Big Eight baseball league will be held at 2 o'clock this afternoon in W. O. Cheney's office at Tech High school.

Monroe Aggies, Riverside Military Academy, G. M. A. Boys' High, Tech High, Columbus Industrial and Commercial were members of the league last year, and representatives of those schools are particularly urged to be present today.

Any other high school within a 50-mile radius of Atlanta desiring to enter the league is invited to be present.

SWEET AS MONEY THE ONE AND ONLY

Real Estate For Sale

Houses for Sale

East Point.

EAST POINT

BRICK bungalow 4 rooms and breakfast room, new floors, new kitchen, garage, a real buy at \$2,000. Call Paul Croker.

NATIONAL REALTY MANAGEMENT CO., Inc.

Candler Bldg. W. A. 2226.

NANCY PAGE

One Large Kitchen That Was Drab Takes New Lease on Life

By FLORENCE LA GANKE

In the same house that had the enormous front bedroom, the new lease was being changed into a bedroom, dressing room and bath. Nancy found the kitchen in a kitchen and breakfast nook.

The kitchen had had a small inadequate window, tight, cramped cupboard, an enclosed stair wall with back stairs and a generally forlorn look.

The kitchen had had a small inadequate window, tight, cramped cupboard, an enclosed stair wall with back stairs and a generally forlorn look.

look. The new owner had called in an architect who had suggested knocking down part of the stair wall so the light from the landing window could shine down the space to be changed to a breakfast nook.

He suggested making a large and adequate window to take the place of the little one which was high above the sink. This new window came down farther into the room so that the sill was at the splasher height of the new monel or stainless steel sink, drain board and cupboard arrangement he suggested. This change to metal, either of the suggested kinds, gave a modern, easily cleaned surface and a streamlined look as well.

The metal topped working surface extended in one piece across the entire width of the room. Cupboards were built above the working surface. The lower part of this new unit was enclosed and fitted with good size drawers.

The walls of the breakfast room space were covered with a wall board surfaced to represent tile. A table was built in. The benches were not built in but were fitted as to space. The table was painted cinnamon brown with a sunshiny yellow finish to the wall tile.

In the new arrangement the stove was placed as indicated on the sketch, see "S." The refrigerator was moved out of the kitchen itself and into the small hall. But the few steps additional required to reach this were more than offset by the breakfast room and the inclusion of the ample cupboards. Nancy hoped the new owner would use yellow curtains in the kitchen with a touch of rich green or coral somewhere in the room.

Nancy's leaflet on "Modernizing" may be procured by sending a stamped self-addressed envelope to Nancy Page, care of The Atlanta Constitution.

Barbara Bell Patterns

This is always a red rag to the young bull but the truth is that a mature man seldom marries the girl he saved when he was a lad. The average husband splits his sides laughing when he tells about the first girl he loved. The only thing they have in common with his wife is that they are females. His taste, like his face and figure, change with the years. He doesn't fancy the same sort of girl when he was a lad. The average husband splits his sides laughing when he tells about the first girl he loved. The only thing they have in common with his wife is that they are females. His taste, like his face and figure, change with the years. He doesn't fancy the same sort of girl when he was a lad. NEW YORK STRIKERS ACCEPT PEACE PLAN

Immediate 'Big Push' Is Threatened Unless Employers Agree to Truce.

NEW YORK, March 8.—(AP)—The Building Service Union tonight accepted Mayor F. H. LaGuardia's plan to settle its strike and the advisory board agreed to submit the plan to its members, giving rise to hopes for a speedy end to the crippling walkout.

Strike Leader James J. Bambrick in a letter to the mayor said his "proffered plan is unconditionally accepted."

A statement of the really board, representing the building owners, said the proposition, "with minor modifications and some additions, although not attractive to the really owners, certainly offers a basis for working out terms and conditions which the advisory board would feel justified in submitting to its membership."

Mayor LaGuardia, informed of the two statements, said he would set machinery in motion early tomorrow morning to bring the two sides together.

The mayor's proposal, advanced yesterday, calls for arbitration of "wages, hours, conditions and duration of contract" and for "all employees to return to work on the selection of the arbitrator within 24 hours."

It also contained four points on which the two sides were to agree immediately:

1. No discrimination against union employees.
2. Vacancies created by the discharge or resignation of union men to be filled by other union members.
3. No interference by employers with union membership.
4. A permanent board to be established to decide controversies.

The second point was referred to as a "preferential shop." The principal point of dispute has been the union's demand for a closed shop and the operators' flat refusal to arbitrate this point.

Commenting on this situation, the labor board said the proposal "concedes the end of the demand for the closed shop."

The statements of the two sides on the proposal did not promise definitely an end to the strike, a week old today.

Big Push Threatened.
The action of the employers in accepting the plan only if certain stipulations were included, Bambrick said, "will not put off the union strike plans."

"Unless the really board accepts the mayor's plan unconditionally before tomorrow morning, the 'big push' is on. It will be our biggest blow of the strike."

Bambrick said the "big push" would be a strike call for 25,000 workers in 4,000 buildings in the Grand Central area in which some of the tallest and most familiar buildings are located.

In discussing union plans to extend the strike to the entire city tomorrow, Bambrick said the walkout will be extended to department stores where the employees are sufficiently organized to make a strike effective.

He added the union is still determined to get a closed shop agreement in buildings where more than 50 per cent of the employees are organized.

City Is Quiet.
Quiet prevailed throughout the city. Hotel entrances were under police guard.

Almost 50 buildings, by police count, were added to the total affected by the walkout during the week-end, bringing to 244 the number in which operators of elevators and other service workers left their jobs to demand a closed shop and wage increase.

Police added, however, that 178 building managements in all had signed agreements with the union since the strike started.

The increase in buildings affected apparently was due to the renewed drive of the union on hotels. A definite falling off in week-end reservations was reported by theaters and night clubs.

Threats to spread the strike to the boroughs of Brooklyn and Queens had not materialized.

50 DIE IN CRASHES
Pennsylvania Leads Nation With 8 Victims.

By The Associated Press.
Automobile crashes took 50 lives across the nation yesterday.

Four CCC members suffering from mumps were killed in a truck accident near Gillette, Wyo., while en route to a hospital for treatment.

A fifth victim of an auto crash in New York died yesterday. The sixth occupant of the car was operated upon and not expected to live.

Pennsylvania with eight deaths led the states. Texas had seven.

The list:
Pennsylvania 8; Texas 7; Alabama 5; Wyoming 4; North Carolina, Kentucky 3; California, Iowa, Illinois, Connecticut and New Jersey, 2; Ohio, Oklahoma, Missouri, Kansas, Colorado, New Mexico, Oregon, Nevada, South Carolina and New York one each.

Congressional Leaders Planning To Enact 'Must' Bills and Adjourn

WASHINGTON, March 8.—(AP)—Congressional chiefs tonight intimated that the ship subsidy legislation and the \$420,000,000 rural electrification bill might be scrapped along with other controversial measures if necessary to protect the May 1 adjournment goal.

Taxes, money for relief, and regular appropriation bills thus were the only items on the legislative agenda bearing a "must" tag.

Senate leaders were talking of winding up their regular duties, letting house members go home to political fence building, and then starting the impeachment trial of Federal Judge Haislet L. Ritter, of Florida.

That suggestion was advanced by Senator McNary, of Oregon, the republican leader. The democratic chief, Senator Robinson, of Arkansas, was not ready to accept it until it was determined whether the trial on charges of misbehavior, high crimes and misdemeanors might be squeezed in while the house was working on taxes.

Operating Subsidies.
A bill to provide for direct construction and operating subsidies for shipping in place of the present ocean mail contracts, has been snarled in the senate since last session. As a compromise, a new measure was offered last week.

To pave the way for possible disposal of the rural electrification measure, Chairman Hayburn, democrat, Texas, of the house interstate commerce committee, arranged for hearings Thursday. He said they should take no more than a single day, and indicated he was ready to accept the senate's reduction of the original billion-dollar plan to \$420,000,000 spread over 10 years.

The bill would set up a permanent rural electrification administration to make loans to states, rural municipalities, utility districts, farm co-operatives or limited dividend corporations to bring power to rural areas now without it.

Overtime work on the administration.
Victoria Goodwin, 15, fell and broke her right arm. She was admitted to Grady hospital.

Negro purse-snatcher, who twisted her arm, took a pocketbook containing \$13 from Mrs. Henry Coppelman, of Columbia, S. C., as she was walking on Edgewood avenue, near Butler street, early Saturday night, she reported to police yesterday. The negro escaped.

Garbo Holiday Ends.
STOCKHOLM, Sweden, March 8.—(AP)—Greta Garbo, who has been on an extended vacation in her native land, announced today she would leave Gothenburg Tuesday for New York en route to Hollywood.

She will sail aboard the Swedish-American liner Drottningholm.

MORTUARY
Mrs. G. C. Moore, 51, died early yesterday morning at her residence, 1101 Pine street, N. E. She is survived by her husband, a daughter, Mrs. William J. Zeller; her mother, Mrs. J. M. Bankston, of Jenkinsburg, Ga.; two sisters, Mrs. E. E. Merritt, of College Park, and Mrs. F. E. Brown, of Conley, Ga.; and six brothers, J. E. Bankston, of Macon; L. C. Bankston, of Dublin; T. A. Bankston, of Washington, D. C.; E. E. Bankston, of Atlanta; and O. M. Bankston, all of Atlanta. Funeral services will be held at 3:30 o'clock (P. M.) this afternoon at the Jenkinsburg Methodist church with burial in Jenkinsburg cemetery. H. M. Patterson & Son in charge of arrangements.

MRS. H. B. STANFORD.
Mrs. H. B. Stanford died yesterday afternoon at her residence, 1101 Blue Ridge avenue, N. E. She is survived by her husband, a son, John William Stanford; her father, W. F. West; a sister, Miss Margaret West; and two brothers, Robert West and Charles West, all of Pompano Beach, Fla. Funeral arrangements will be announced by H. M. Patterson & Son.

MRS. LILLIE PEARL MASON.
Final rites for Mrs. Lillie Pearl Mason, of 816 Pryor street, who died Saturday, will be held at 2 o'clock this afternoon at the chapel of Brandon-Rond-Comden. The Rev. T. B. Thrall will officiate and burial will be in Hill Crest cemetery.

MRS. ESTELLE SEWELL.
Final rites for Mrs. Estelle Sewell, who died Saturday night at her residence, 501 Parker drive, will be held at 2:30 o'clock this afternoon at the chapel of Avery & Lowndes with the Rev. R. C. Huston officiating. Burial will be in Greenwood cemetery.

Falling off a bannister, William M. Mayo, 5, of 720 Crew street, S. W., suffered a fractured left leg yesterday morning. He was admitted to Grady hospital. His condition is not serious.

9:00 Tonight Station WGST

A Few Words To The New Voters

TO FULTON COUNTY'S NEWLY REGISTERED VOTERS:

There will be more new voters in the primary next Wednesday than in any election ever held in Fulton County.

In presenting myself to the new voters for re-election as Sheriff, it seems to me that the best recommendation I can offer is the fact that I was elected in 1916 and have been continuously re-elected without a break. Since we took office on January 1, 1917, my Deputies and I have performed at least two million official acts. We have handled 225,000 prisoners with only a few escapes and not a single instance of mistreatment. We have handled upwards of fifteen million dollars of public funds and private funds involved in litigation and have punctually and accurately accounted for every penny of it. Neither in this nor any previous contest has any opponent ever criticized one single official act of mine or any of my Deputies.

To those who will cast your maiden ballots next Wednesday, I do not know of anything stronger I could say than merely to state these facts. If you were going into a business corporation as new stockholders, and found one department thereof in charge of a staff of trained employees who had served for twenty years with no single criticism of their conduct at any point, I believe you would vote to keep them on the job.

I feel the utmost confidence in my re-election and I take this method of expressing the grateful appreciation of myself and Deputies for the thousands of assurances of support which have come to us voluntarily, both from old and new voters. I hope every voter on the registration list will cast his or her ballot.

Respectfully submitted,
JAMES I. LOWRY.
